Baptist Student Union

Centenary College is a private co-educational liberal arts college folded into a campus covering nearly 40 acres of wooded, gently rolling land not far from the winding banks of the historic Red River. The campus lies close to the very heart of a large and populous triple state commercial area formed by the juncture of Arkansas, Texas, and Louisiana. The region supports upwards of a million people. Centenary is the only fully-accredited four-year private school serving a large part of the area. Centenary students come not only from this area, however, but from many other states in the union as well. More than 65 percent of the students are resident in college dormitories and fraternity houses. Centenary has a proud and venerable history dating back 143 years to modest beginnings as a small state institution in the southern part of the state. The College early became affiliated with the Methodist Church, and today it still is strongly and actively supported by the church. But Centenary is not content to rest on the proud years of the past. Each year the College commits itself with vigor and confidence to new goals of academic excellence, and to new dimensions of spiritual and intellectual growth.

I

CENTENARY COLLEGE TODAY

Centenary's aims and its purposes are deep-rooted in traditions of excellence and service established in the beginning years of the College more than a century ago. These aims and these purposes remain essentially the same today, though the ways that we pursue them must always change to keep pace with a world that does not stop and wait for history to catch up.

Each year there are new students to ask new questions, seek new answers to problems that themselves are new. Centenary does not confer pre-packaged answers upon its students along with their degrees, but the College does hope to offer these questing students some of the spiritual adventures and the bold intellectual experiences wherein exciting answers might lie.

Each year Centenary College graduates go forth to work in the church, in the law, or in medicine. Some want to teach, some choose careers in business and industry. Some make their mark in letters; others in science and research; some in social service. All over the world they have distinguished themselves and the College in many fields of endeavor.

The purposes of the College as stated by the faculty are clear and plain: "As a church-related college, Centenary seeks to provide liberal arts education for students capable of intellectual leadership and for all who can benefit from study in an academic community where excellence is encouraged and individuality is respected. The College purposes to challenge its students to serve society by exemplifying the highest Christian ethic; to provide them with a basic understanding of human affairs and problems; to equip them to think clearly, honestly and constructively, and to communicate effectively; and to introduce them to the arts and sciences that they may enjoy the best of the heritage of civilization. By requiring a field of major concentration, the College prepares students for education beyond the baccalaureate degree as well as for immediate participation in an increasingly complex society."

Centenary College is fully accredited today by all appropriate standardizing and accrediting agencies, both regional and national. It is a member of the Southern Association of Colleges and Schools, the National Association of Schools of Music and the American Association of University Women. The College is approved by The

American Chemical Society, and it is recognized by the General Board of Education of the Methodist Church as one of its strongest institutions. It is also approved by the University Senate of the Methodist Church.

The College maintains membership in the American Alumni Council, the American Association of Colleges for Teacher Education, the American Association of Collegiate Registrars and Admissions Officers, the American Council on Education, the Association of Colleges, the Association of University Evening Colleges, the Louisiana Academy of Science, the Louisiana College Conference, the National Association of Schools and Colleges of the Methodist Church and the National Commission on Accreditation.

Centenary College had its beginning in an institution founded at Jackson, Louisiana, by the state in 1825. The oldest institution of higher learning in the state, the school was officially called The College of Louisiana until 1845. In celebration of the centennial anniversary of Methodism in 1839, the Mississippi Conference founded a Methodist college called Centenary at Clinton, Mississippi. In 1840 this college moved to Brandon Springs, Mississippi, and in 1844 it graduated its first class.

The state of Louisiana decided to close the College of Louisiana at Jackson in 1845, but friends of the Centenary institution at Brandon

Springs acquired the buildings and grounds at Jackson and moved the school there. The college became Centenary College of Louisiana, and the name remains officially the same today.

By the time of the Civil War, the college at Jackson was flourishing as a leading Southern educational institution. Its enrollment grew to about 250 students annually. The College was forced to suspend classes for five years during the war period, between 1861 and 1866, however, because most of its students and faculty were in military service.

In October of 1861 the faculty met for the last time. The minutes of this meeting were not recorded, but across the blank page someone wrote tersely, "Students have all gone to war. College suspended and God help the right." During the next few years, nearly every member of the senior class died in the fighting. Many other students

and faculty members also gave their lives, victims of wounds and disease, before the war ended.

During the years following the war, the struggling College resumed classes, managing to contribute considerably to the intellectual growth and the leadership of Jackson for some years. Bishop John C. Keener befriended the College, and for 40 years he solicited funds to support it, driving many a tired mile in his horse-drawn buggy.

The railroads had bypassed Jackson, however, and as time went on, it became obvious that the southeast Louisiana community would never be able to offer the necessary facilities of a larger metropolitan community. Mr. J. B. Atkins and Mr. J. W. Atkins of Shreveport, together with a group of their friends, invited Centenary to move to North Louisiana. Land was offered for a campus, and Shreveport citizens collected money for buildings and classroom equipment. The first classes were held on the new Shreveport campus in 1908.

In 1925, its centennial year, Centenary College graduated its first class of more than 100 students.

The College weathered the hardships of the World Wars and the Depression with great sacrifices but also firmer faith in its mission and its opportunities. Today it has a solid basic endowment from the churches of the Louisiana Conference, income from gifts and scholarships, and the enthusiastic support of the business community. The modern campus covers nearly 40 acres of picturesque, tree-studded land located an ideal distance from the business center of Shreveport.

At the heart of the College complex are the library and the chapel. The library has 88,080 volumes in its growing collection this year, plus numerous private study rooms, comfortable offices and classrooms in the basement, extensive microfilm facilities, a rare book room, and a roomy lobby which is eminently suitable for art exhibits and other special showings. Brown Memorial Chapel, the gift of Paul M. Brown and S. Perry Brown in memory of their parents, will seat virtually the entire student body in its main sanctuary. Sunday worship services are held there as well as the regular College chapel programs, which are held almost weekly.

The College is fortunate enough to have one of the most attractive and best-equipped theatres in this part of the country. Marjorie Lyons Playhouse was the gift of Mrs. Charlton Lyons and her family. It offers the best possible classroom and workshop facilities for speech and drama students to support its magnificent stage and auditorium facilities.

The new Ed E. Hurley Memorial Music Building, a gift of Mrs. Hurley in memory of her late husband, provides sound-proof studios, rehearsal rooms, practice rooms, a recording studio, a music library, and a spacious recital hall for student and faculty performances. The Dean R. E. Smith Building, a gift of the Louisiana Conference of the Methodist Church in 1961, offers classrooms for religion studies, a small auditorium, kitchen facilities, and room for gatherings and meetings.

Commencement exercises, concerts and other special programs are held in the Reginald H. Hargrove Memorial Amphitheatre, which was completed for College use in 1964. Haynes Memorial Gymnasium houses gym facilities, basketball court, handball courts, offices and classrooms for health and physical education. Mickle Hall of Science contains offices, science classrooms and laboratories; Jackson Hall houses the Departments of Art, English and Foreign Languages and Philosophy; and administrative staff offices are located in the Administration Building.

Main center of student activities and social hub of the campus is the Randle T. Moore Student Activities Building located almost in the geographic middle of the campus. The SUB has a newly redecorated and picturesque snack bar, a separate TV room, a recreation and lounging area, and office facilities for student government groups and for student publications. The College postoffice and bookstore are also housed in the SUB.

Three air-conditioned girls' dormitories cluster toward the north end of the campus, next to the building which houses two dining halls

serving meals to students, faculty and staff. These are James Memorial Dormitory, Hardin Hall, and Sexton Hall. The men's residence halls, Cline Dormitory and Rotary Hall, are located toward the south perimeter of the campus.

During the next few years the College expects to make many dramatic changes in existing physical facilities in order to keep pace with advancements in the classroom and the laboratory. In 1965 the College began Climax '75, a ten-year program of building and improvement which is to culminate with the 150th anniversary of the College in 1975. This program envisions the College reaching a new peak of educational quality with a stronger faculty, a larger and better prepared student body, and the best possible equipment, library, laboratories and classrooms. A new master plan for campus development is being drawn for Phase Two of the Climax '75 campaign, and the College expects to begin implementing the plan late this year.

II

THE CENTENARY COLLEGE STUDENT

LIVING ON THE CAMPUS

Centenary students come from almost every state in the nation, and there are almost always a few from foreign lands. Last school year, students from six countries other than the United States were enrolled at Centenary. About fifty-five percent of the student enrollment is made up of men students. More than sixty percent of the student body is resident on campus.

The College believes that group living in the academic setting is most conducive to personal growth and development and to total involvement in campus life. Therefore all fulltime single students who are not living with their parents are required to reside in the dormitories and buy meal tickets for use in the college cafeterias. At the discretion of the Dean of Students, though, a specified number of junior and senior male students are allowed to reside in the fraternity houses. These students must also buy meal tickets, and they must observe dorm rules in the fraternity houses.

Men students live in Rotary Hall and Cline Dorm. Effort is made to place male freshmen with some upperclassmen who can best aid them in making the adjustment to college life. Women students live in Sexton Hall, James Dorm, and Hardin Hall.

A few qualified women students are chosen each year to participate in an Honors Dorm living experiment. Honors Dorm privileges will be extended to a selected group of women students in the new dormitory.

Students who are already enrolled in Centenary are required to make a \$50 deposit by March 15 on their dormitory rooms for the following fall. The deposit will be refunded provided the student notifies the College prior to June 15 in the event he changes plans and decides not to attend the College in the fall. Room deposit for prospective new students is included in the advance payment of \$100 which is required upon the student's acceptance of offer of admission.

Two comfortably furnished and immaculately kept dining halls are located in their own separate building next to the women's dormitories

on Sexton Drive. Hot meals are served daily at times conveniently fitted to class hours and test schedules. Light meals and snacks may also be had at the snack bar in Moore Student Center.

STUDENT GOVERNMENT

Believing that responsibility and self-direction are necessary parts of the college learning experience, Centenary traditionally has encouraged and supported student government. Students serve in an advisory capacity on many faculty and administrative committees. Considerable authority to govern, regulate and control student affairs within the framework of the College administrative policies is delegated to such responsible bodies as the Student Senate. Officers and members of the Senate are the elected representatives of the entire student body.

All social or competitive functions affecting students, including campus elections, are the jurisdiction of the Senate. The Senate also arranges and sponsors movies, entertainment programs, and visits to the campus of prominent speakers representing different fields of thought.

To a large extent, students themselves constructed the Honor System which binds all students and governs all academic work at Centenary College. Through an Honor Court of five justices chosen from nominations by the faculty and the student body, the students themselves administer the Honor Code. The Honor System is founded on the premise that honor is fostered, not forced, and that it can be fostered only through the willing and earnest efforts of both faculty and students. All fulltime students who enroll at Centenary subscribe to the Code, and thus they automatically become a functioning part of the system.

The Interfraternity Council and the Panhellenic Council help maintain sound relations between social fraternities and sororities on campus and they pursue ways to encourage scholarship and intellectual accomplishment.

The Women's Student Government Association acts as a unifying body for all women students at Centenary. It establishes and maintains standards of conduct for women students, and it fosters closer communication between dormitory residents and those who live in town. Dormitory Councils and a Judicial Board supervise administration of housing regulations and hear cases involving infractions of dormitory rules.

An elected Men's Dormitory Council acts upon infringements of housing rules which do not come under the jurisdiction of either the

Honor Court or the Student-Faculty Discipline Committee. The Men's Judicial Board, composed of elected upperclassmen, considers appeals and referrals from the Dormitory Council and sits in other matters involving rules and policies governing men students.

RELIGIOUS LIFE

Centenary believes that religious faith is the foundation of intellectual attainment as well as of personal development. The student is therefore provided many opportunities for worship and for private meditation in the College Chapel. Centenary has its own Chaplain, a Methodist clergyman assigned by the presiding bishop to minister to the campus. The Chaplain is available to students for counseling at any time. He has charge of the regular Sunday morning worship services in Brown Memorial Chapel, he helps plan the Thursday chapel programs, he directs the Methodist Student Movement, and he coordinates all other religious activities on campus.

Most of the major religious denominations have active organizations headquartered either on or very near the campus. Students are strongly encouraged to participate in these organizational activities, and facilities of both the Chapel and the R. E. Smith Religious Activities Building are available to them.

The Methodist Student Movement is the organized ministry of the Methodist Church to the campus. At Centenary MSM sponsors regular weekly meetings, films, lectures, discussion groups, and spring and fall retreats which are dedicated to Christian fellowship and to questions concerning the relationship of religious faith to higher learning in the modern college classroom.

Each year, through the Willson Lecture Series, outstanding lecturers in theology, philosophy, and education are brought to the campus. These guest lecturers are made possible by Dr. and Mrs. J. M. Willson of Floydada, Texas.

COMMUNICATIONS

Student talent and student opinion find expression in *The Conglomerate*, *The Yoncopin*, and *Insights*. *The Conglomerate*, a newspaper, is published weekly when classes are in session, and *The Yoncopin*, the college yearbook, is published in late spring. Both are student written and student edited. They are partially financed by student fees and scholarships are available to their editors. *Insights* is a magazine showcase for both writers and artists. It is published once a year under the sponsorship of Sigma Tau Delta, honorary English fraternity.

MUSICAL ORGANIZATIONS

The famous Centenary College Choir is a familiar sight and sound on radio, television, and theatre stages across the world. The group has made two overseas tours, filled two long engagements in Radio City Music Hall, and sung at many an international convention, in addition to making countless appearances before church, club, social and civic groups all over the south. For 15 consecutive years the Choir has been appearing on its own sponsored television program. Such programs as the "Rhapsody in View" home concert and the solemn and beautiful Christmas Lighting Ceremony at Hodges Gardens near Many are solidly established traditions.

The College band has over the years distinguished itself in excellence and popularity with both students and community. The Band

plays concerts at regular intervals for the enjoyment of the student body, and it plays for all sports events. In the summer its members form the nucleus for a special band which plays a very popular series of free outdoor concerts each week in Hargrove Memorial Amphitheatre on campus.

Symphony Chorale gives qualified student singers the opportunity to perform the great choral masterpieces with the Shreveport Symphony Orchestra, and the School of Music's Opera Workshop presents two productions of chamber opera each year, extending tryouts to every member of the student body.

DRAMA AND ART

Centenary's magnificent and versatile Marjorie Lyons Playhouse not only helps make it possible for the College to offer a strong major

in drama and speech, it also makes possible the presentation of a great variety of the world's best plays. The Jongleurs, a student drama group, utilizes the widely varied talents of many undergraduate students as well as those majoring in drama and theatre arts. The aim of the group is to present drama of imaginative artistic calibre, and to provide a diversified dramatic program.

The College often brings the work of outstanding artists, sculptors and photographers to the campus for showing in the foyer of the library. Centenary art majors and faculty members show their work frequently in campus exhibits, and they participate actively in showings and competition off campus. The Centenary chapter of Kappa Pi, national fraternity for art majors, each Christmas sponsors a special exhibit and sale of student and faculty artwork for benefit of scholarship projects. Rare books and particularly interesting or valuable manuscripts frequently are secured for display in the library itself.

HONOR SOCIETIES AND SERVICE ORGANIZATIONS

Quite a few honorary fraternities and service organizations which recognize scholarship and leadership have chapters on the Centenary campus. These include: Alpha Chi, national scholastic fraternity for junior and senior men and women who have a 3.5 cumulative average and are invited to join; Alpha Epsilon Delta, national honor society for pre-med students who have a 3.0 average in science courses and a 3.0 average in non-science courses; Alpha Psi Omega, national honorary fraternity for achievement in dramatics; Alpha Sigma Chi, society of chemistry upperclassmen who have a 2.5 cumulative average and a 3.0

24

*Centenary
College*

average in chemistry; Alpha Sigma Pi, scholastic fraternity for freshmen and sophomores with a 3.5 average; Delta Tau Omicron, honorary business and economics fraternity for students having a cumulative average of 3.5 in business and an overall average of 2.5; Phi Sigma Iota, national honor fraternity for Romance Languages; Pi Kappa Delta, national honorary forensic fraternity; Sigma Gamma Epsilon, honorary fraternity for students with a 3.0 cumulative average in 10 hours of geology and a 2.0 overall average; Sigma Pi Sigma, honorary physics fraternity for students with a 3.0 average and three hours of advanced physics; Gamma Beta Gamma, national biology fraternity; Kappa Pi, national art fraternity; Phi Beta, national speech and music fraternity; Phi Mu Alpha Sinfonia, organization of men interested in music; Sigma Tau Delta, national writing fraternity.

The Maroon Jackets are an elite service group whose members are chosen from among women students with at least a 3.0 cumulative average and outstanding qualities of leadership and character as well. The Maroon Jackets are the official hostesses of the College. Omicron Delta Kappa recognizes leadership in various fields of activity, and Kappa Chi is a service organization which invites members of any denomination who are interested in fulltime religious vocations.

Membership in Alpha Phi Omega, a national service fraternity, is open to men students at Centenary who have a cumulative average of 2.0 or better and who are interested in developing leadership, promoting friendship, furthering the freedoms that are our national heritage, and offering other services to humanity. Women students are eligible for membership in Phi Alpha Lambda, a leadership and service organization with similar aims and goals. Both men and women may belong to the Sophomore Service Organization.

There are a number of other clubs and organizations through which the student can become more deeply involved in campus life and through which he can himself contribute. These include the Math Club, the Dramatics Club, the French Club, the German Club, the Jongleurs, the Karate Club, the Physics Club, the Psychology Club, the Spanish Club, the Student National Education Association, Student Medical Assistants, the Physical Education Majors Club, the Centenary Young Democrats Club, the Centenary Young Republicans Club, and the Student Louisiana Teachers Association.

SOCIAL FRATERNITIES AND SORORITIES

About 36 percent of the men students belong to four social fraternities active on the Centenary campus. Three sorority chapters include about 39 percent of the women students as members. The fraternities are Kappa Alpha, Kappa Sigma, Tau Kappa Epsilon, and Theta Chi. The three active sororities are Alpha Xi Delta, Chi Omega and Zeta Tau Alpha. At Centenary freshmen may be rushed at the beginning of the fall semester, but summer rush is forbidden.

INTELLECTUAL, CULTURAL AND SOCIAL ACTIVITIES

There is usually never a lack of stimulating activity on the College campus. The Senate-sponsored Forums programs brings to the campus renowned educators, politicians, leaders, thinkers. Through Lyceum programs students enjoy guest lecturers and entertainers representing all of the arts. During the academic year there are many special concerts, recitals, offerings of the Symphony Chorale, the Opera Workshop, the Marjorie Lyons Playhouse, and art exhibits. The College

devotes a whole week to a Fine Arts Festival each spring, during which special offerings of theatre, poetry, literature, music and art are presented for enjoyment. Guest artists and lecturers engaged for the Festival address small gatherings and visit classrooms informally.

In addition to the many social events regularly calendared by the Greek organizations, there are many all-college dances, beauty contests, competitions to pick favorites, and other fun affairs involving the entire student body at frequent intervals during the year. A few of these include the traditional spring Founder's Day picnic, Faculty Follies and an all-campus weekend.

ATHLETICS

Centenary gives considerable importance to a broad general program of physical fitness for the entire student body. All degree candidates must complete two years of formal physical education classes. As a companion to formal training, both men and women students are strongly encouraged to participate with teams in intercollegiate competi-

tion and to take part in the various intramural programs which are available. Men play intramural football, basketball, ping-pong, handball, volleyball, tennis and participate in cross-country. A Women's Recreation Association organizes contests and promotes sportsmanship among women students in similar activities.

In intercollegiate competition, Centenary remains a major independent. Freshman and varsity basketball teams play in the University Division of the NCAA; golf, tennis and baseball teams play in the College Division of NCAA. The College does not participate in intercollegiate football and does not sponsor a varsity team in this sport.

S T U D E N T S E R V I C E S

The academic life and the personal welfare of the student are inseparable. Recognizing this, Centenary has structured a sound program of advisement centered around the academic, the personal, the religious and the social aspects of the student's life on campus. Each student is assigned a faculty adviser who is either the chairman of the department of his major area or is a faculty member teaching within the department. The Dean of the College counsels in the area of academic affairs, while the Dean of Students and the Dean of Women advise on personal, social and dormitory problems, and those concerning Greek letter organizations. The Director of Student Activities assists in all social activities on the campus, publishes the Activities Calendar, and is responsible for the Student Union Building. The Registrar assists with degree plans and graduation requirements. The College has its own Chaplain, a Methodist minister assigned as minister to the campus, who is available to students at any time for assistance with problems of any sort.

The Department of Education and Psychology operates a counseling and testing service for students, primarily for vocational purposes. The aim of the program is mainly to assist students in a choice of majors. Evaluation of personal problems is limited to appropriate referral.

Students who may desire assistance in securing employment either on or off campus may approach either the Director of Student Activities or the Financial Aid Officer. A placement service is also offered for prospective teachers.

To meet health needs of the campus, the College maintains a small dispensary with a fulltime registered nurse.

III

ADMISSION, COSTS AND FINANCIAL AID

ADMISSIONS

Centenary College accepts applications for admission from students in the college preparatory courses of accredited secondary schools and from students transferring from accredited colleges without regard to race, color or religious commitment. Applications must be received before registration, however, and recommendations must be satisfactory. The College selects those students who demonstrate the ability to do college work, those who will profit most from opportunities offered in the academic community, and those who seem to possess the most promise of contributing constructively to student life on the campus.

ADMISSION REQUIREMENTS

Admission to Centenary is based on consideration of personal qualities and on performance records. Graduates of accredited secondary schools must present 15 units, including three units of English; two of history and other social science; two units of college preparatory math (minimum of one algebra and one geometry). The eight elective units should include two of foreign language, one in a natural science, and an additional unit in English. If less than two units of a foreign language are presented, not less than two years of a foreign language at college level will be required for the B.A. Degree or for the B.S. degree (except for candidates for the B.S. degree in education, engineering sciences and physical education). Applicants must have maintained an average of "C" or better in those high school courses which are considered as college preparatory.

Entrance Examinations: Applicants for admission must take the Scholastic Aptitude Test of the College Entrance Examination Board and must submit scores to the College. Information about the tests may be obtained from the College Entrance Examination Board, Box 592, Princeton, N. J. 08540, or Box 1025, Berkeley, California.

The Honor Code: Those students who are admitted to the College must agree to maintain standards of conduct that conform to the Honor Code in all areas of College life. As a part of registration and orien-

tation, students will be required to sign a statement showing that they have read the College Honor Code and that they will abide by it.

Admission Procedures: Application blanks and other information concerning admission may be obtained from the Office of Admissions. When the application is completed, it should be submitted to the Director of Admissions, Centenary College, P. O. Box 4188, Shreveport, La. 71104. The complete application should include:

Completed form, plus the application fee of \$10. The fee must accompany all applications and it is not refundable. Neither is it applicable to tuition charges.

A complete transcript of all high school grades, and scores on the high school level General Educational Development Tests, if the student has taken them.

A complete and up-to-date transcript of all college credits earned if the applicant has previously attended college or is attending college at the time he is applying. In the latter case, supplementary transcript will be necessary to show completion of current work.

There is an advance payment of \$100 required for dormitory space and tuition for all students requesting to live on campus and to pre-register. There is a \$50 fee for incoming or transfer students not pre-registering.

31
*Admission,
Costs and
Financial Aid*

Advanced Placement: Centenary College participates in the Advanced Placement Program administered by the College Entrance Examination Board. Subject to departmental approval, advanced placement with college credit is given for examination scores of three, four and five. Scores of two will be considered for advanced placement, but without college credit. For further information about the Advanced Place-

ment Program, students should consult their high school counselors, or write to the Dean of the College.

Early Admission: Certain gifted and carefully-selected students who have completed the junior year in high school may enroll as regular students at Centenary College, bypassing the senior year in high school. Students admitted to this program do not receive a high school diploma, but they are able to begin advanced college work earlier. To be eligible for early admission, a student must have had three units of English, three of mathematics, two of science and two of social science, and he must have the personal recommendation of his counselor and principal and the approval of his parents. It is also necessary to provide scores on the Scholastic Aptitude Test of College Entrance Examination Board. A personal interview may be required.

Early Decision Plan: The majority of admissions and financial aid decisions are made by the College during its regular program in February and March, but Admissions regulations do make allowance for an earlier decision by a few select students who are certain that they wish to attend Centenary. The Early Decision Plan is intended exclusively for, and is limited strictly to, those few students. Under the plan, the College can give assurance of admission by November 1 of the student's senior year if the student has followed the correct procedures.

The correct procedures are: Applicants must submit application before October 15 of their senior year, and they must provide transcript

of school work already completed, plus a list of subjects planned for the senior year, and College Board Scholastic Aptitude Test Scores by or before October 15; application must be accompanied by a \$50 deposit on tuition which is refundable only if early decision is not granted, or if the student cancels his application before February 1; applicants who cannot attend Centenary without financial aid must submit scholarship applications at the same time as they apply for admission, and a Parents' Confidential Statement (obtained from the high school counselor) should be mailed to the College Scholarship Service, Box 176, Princeton, N. J., by October 1 so that the schedule for Early Admissions can be met.

Admission of Transfer Students: Candidates for admission as transfer students are expected to fulfill the regular requirements, including secondary school records and test results. In addition, an official transcript of all college and university work must be submitted for evaluation of credit. Credit may not be transferred for any course taken at another institution unless that course or a reasonable equivalent thereof has been approved for offering at Centenary. Credit for such courses taken at other institutions will be transferred only if a grade of C or better has been earned in the course. Cumulative grade point averages will be calculated only on work attempted at Centenary.

Insurance: All fulltime students (those taking for credit 12 or more semester hours) are insured against accident at no additional cost to the student. This insurance is in effect 24 hours a day for the nine month school year. Thus the coverage includes such interim vacations as Christmas and Easter. Additional insurance covering medical and hospital expenses is available with the policy covering accidents with the student paying the additional premium cost. A booklet containing details concerning the insurance plan can be obtained from the College business office.

E X P E N S E S

Annual Expenses: Fees charged by Centenary College amount to less than half the actual cost of instruction and operation; the remainder of the cost is met with income from endowment and gifts from the Methodist Church and from friends of the College. Parents who wish to do so may make contributions toward the total actual cost by making additional payments.

Tuition and fees: As the cost of education increases, Centenary College reserves the right to make whatever financial adjustments are necessary in charges for tuition and for board and room. Tuition for fulltime students taking 12 to 18 credit hours is \$500 per semester.

Students who take more than 18 hours will be charged \$40 per credit hour for each hour in excess of 18, except when applied music is responsible for the excess hours. Tuition for special or part-time students taking less than 12 semester hours is \$40 per credit hour, and the minimum charge for any student is \$120. The charge for summer session is also \$40 per credit hour, with a minimum of three hours or \$120. Fee for nine hours (maximum summer session load) is \$360.

The fee for evening division courses is \$35 per credit hour except for daytime students taking courses in the evening division, who will be charged \$40 a credit hour. Tuition for audit or non-credit courses is the same as for courses taken for credit.

Board and Room: All dormitory students are required to take their meals in the College cafeteria. Board charges and dormitory room rent are paid by the semester. Board is \$260 for each semester during the regular session and \$140 for the nine weeks summer session. Room

charges are \$145 per semester for boys, \$150 per semester per student for two girls in a room. The room charge for the nine weeks summer session is \$80.

Applied Music: Regular students who enroll in private applied music courses will pay an additional fee of \$45 per semester for one-half hour lesson per week, and \$90 per semester for one hour lesson per week. Special students who enroll in private applied music courses will pay a fee of \$60 per semester for one-half hour lesson per week, and \$120 per semester for one hour lesson per week. Practice rooms, pianos, and other instruments are available in the Music Building. The rental fee for an orchestra or band instrument is \$15 per semester. The rental fees for pianos and organs are charged at the following rates:

	Piano	Organ
2 hours per week	\$3.00 per semester	
5 hours per week	\$6.00 per semester	\$7.50 per semester
10 hours per week	\$9.00 per semester	\$11.25 per semester
15 hours per week	\$12.00 per semester	\$15.00 per semester

Other Special Charges:

Application (not refundable and not applicable to tuition)	\$ 10.00
Student Service Charge per semester (including medical fee, athletics, Conglomerate, Physical Education, Student Senate, Lyceum, identification card and library) . .	20.00
Student activity fee per semester (all full-time students)	10.00
College annual, fall semester only (all full-time students)	10.00
Parking, per year for day students	4.00
Late Registration	10.00

35
*Admission,
 Costs and
 Financial Aid*

Change of Course (if made more than two weeks after first class)	\$ 5.00
Student Teaching	100.00
Teacher Certification	15.00
Graduation Fee (GRE, diploma, cap and gown rental)	22.00
Bowling, per semester	15.00
Golf, per semester	8.00

Students in laboratory courses are expected to pay for all breakage in the amount of the loss.

Transcripts: Each student is entitled to one free copy of his official transcript. Extra copies may be obtained upon payment of \$1 for each additional transcript.

Payment of Fees: Matriculation in the College is an implied contract accepting all regulations of the College, including those governing payment and refunds. Charges are made by the semester and they are payable by the semester. Payment of semester expenses, or arranging to pay them, is considered a part of registration. Enrollment has not been completed until the student has paid his fees or has made satis-

factory arrangement with the comptroller. Students who are more than ten days delinquent in payment of any fees may be withdrawn from the College.

There are several acceptable methods of paying:

1. The entire account may be paid on registration,
2. One-third of the charge may be paid on registration and the balance in two equal installments, one due in 30 days and the balance in 60 days. There is an installment charge of \$10 for this method of payment. (Credits for scholarships and student aid cannot be considered part of first payment.)
3. For summer session, the entire amount is payable on registration, or the student may pay half on registration and the remainder within 30 days. There is a \$5 carrying charge for this latter method of payment.
4. An insured program for meeting educational expenses out of monthly income can be had through Education Funds Inc. (Details of the plan are available through the business office.)
5. Tuition Plan. (Details available from the business office.)

Refunds: There is no refund for courses dropped while continuing in other courses. If a student withdraws from all courses during the first four weeks after class work begins, there will be a 50 percent refund of tuition. Board for that part of the semester which has not been used will also be refunded; however, room rent cannot be refunded. Official withdrawal will be the date the student receives approval from the Dean of the College. All refunds will be based on that date, regardless of date of last attendance, and failure to attend classes does not constitute a withdrawal.

If a student matriculates, but receives permission from the Dean of the College to withdraw prior to the first class meeting, all tuition will be refunded except a matriculation fee of \$10.

FINANCIAL AID

Centenary College feels that the academically qualified student should be able to attend the college of his choice regardless of financial circumstances. The College, therefore, offers programs of scholarships, loans, grants and part-time employment to serious and qualified students who need them and earn them. All financial assistance is rendered on the basis of academic excellence and need. Each application for assist-

ance is considered carefully and individually in an effort to fuse scholarship, loan, employment and parental assistance into a whole which will permit the student to do his best work without undue stress from financial worries. A booklet outlining the programs in detail is available upon request.

Scholarships and Grants: The College gives a small number of tuition grants to deserving students who need aid and who have talent in debate, dramatics, band, choir, student publications and student leadership. To qualify for a grant of this kind the student must maintain a scholastic average of "C" or better. Special tuition concessions are granted to pre-theological students and to dependents of ministers of all denominations. To be eligible for the tuition remission allowed to ministers' dependents the student must be a full-time undergraduate student who is single and making his home with his parents. He must have and maintain a "C" average. The College also has available a number of endowed scholarships and annual gift awards for deserving and needy students in all fields of study. Interested students should contact the financial aid officer at the College.

Loan Funds: Centenary participates in: the National Defense Loan program, which loans up to \$1,000 per academic year and requires that the student maintain a scholastic average of 2.5; Louisiana Higher Education Assistance Commission Loans, for residents of Louisiana in financial need, which also has a maximum of \$1,000 a year and insists that the student maintain a scholastic average of 2.0 or better; the United Student Aid Fund Loans, which arranges maximum loans or \$1,000 per academic year to students who maintain a scholastic average of 2.0; and the Methodist Student Loan Program, which helps needy students who are members of the Methodist Church and requires a grade point average of 2.0.

Evaluating Financial Needs: Students who are in need of scholarship aid or loan assistance should contact the Scholarship Committee or the Financial Aid Officer at the College. Academic performance and need are established. As a member of the College Scholarship Service, Centenary uses the Parents' Confidential Statement to help determine financial need. These statements may be obtained from the student's high school guidance office, or from the College Scholarship Service, Box 176, Princeton, N. J. 08540. The statement should be filed before February 15 of the year in which the student will request aid. In addition to this form, applicants for assistance must file a second less detailed form which is obtained from the Financial Aid Officer and returned to that office when it is completed.

Student employment: Students rarely are able to earn all of their expenses while attending college, but many students do pay part of their college expenses by working in the library, laboratories, and offices. On-campus employment is handled by the Financial Aid Officer, and the Director of Student Activities assists individual students in securing part-time employment off campus.

IV

COLLEGE REGULATIONS

Admission to the College and attendance in classes are conditional upon acceptance of and compliance with the rules and regulations of the College as now established or hereafter revised. The very foundations of the College rest upon the Honor System, and therefore it is especially necessary that students understand clearly and comply wholly with the terms of the Code by which they must be bound so long as they remain students at the College. The provisions of the Honor Code are set out in *Gentlemanly Speaking*, and in a special booklet prepared by the Honor Court. Campus parking regulations are published in a special booklet obtainable from the business office. Other rules and regulations are published in this *Catalogue* and in *Gentlemanly Speaking*. Each student is responsible individually for knowing the rules of the College and for abiding by them.

The course offerings, rules, regulations and fees appearing in this *Catalogue* are announcements. They are not to be construed as representing contractual obligations of Centenary College, which reserves the right to change its courses of instruction, fees, charges for room and board, and its general and academic regulations without notice should it be the judgment of the College that circumstances warrant such changes.

41
*College
Regulations*

Registration: All students are required to register either during the pre-registration period or during the formal registration period designated by the College in the Academic Calendar. A late fee of \$10.00 will be charged for the completion of registration after the last designated day for registration. Registration is complete when the appropriate cards and forms have been filled out properly and fees have been paid. Registration is for one semester only.

Course Load: Candidates for degrees (except those designated "special students") must register for at least 12 hours each semester. The normal course load ranges from 15 to 18 semester hours. Special permission must be obtained from the Dean of the College for any student to take more than 18 hours in any regular semester or more

than nine in any summer session. Students of junior and senior standing who have an average of 3.0 and permission of the Dean may register for one course in excess of 18 hours without additional tuition charge.

Classification: Freshman students are defined as those with less than 27 semester hours, sophomores are those with 27 to 59 hours, juniors are those with 60 to 89 hours, and students with 90 or more hours are classified as seniors.

Major Fields of Specialization: A student who plans to become a candidate for a degree must select a field of specialization (major) by the beginning of his junior year. A departmental major consists of courses within one department totaling from 24 to 44 semester hours plus courses in one or more related subjects selected in conference with the chairman of the department which total from 12 to 30 semester hours. A divisional major consists of courses within one division which total at least 70 semester hours and includes courses which are prescribed by the particular divisional majors. The College offers majors in art, biology, business, chemistry, economics, elementary education, English, foreign languages, geology, history and government, mathematics, philosophy, physical education, physics and engineering science, psychology, religion, sociology, speech and drama, and music.

Credits and Quality Points: Most courses at Centenary meet either three times a week for 50 minutes each period or twice a week for periods of 75 minutes each. Carried successfully for one semester, such courses earn three semester hours each. Year courses carried successfully earn six credits. Some courses such as laboratory sciences, physical education, engineering drawing and art earn only one semester credit hour for three class meetings a week.

The College uses a 4.0 scale in calculating cumulative averages. To qualify for graduation, a student must achieve a cumulative average of 2.0 in all work taken in his major, and 2.0 in all other work taken in the College. To allow for adjustment, however, the faculty has set a graduated scale of minimum cumulative averages which the student is expected to meet in order to remain in good academic standing. Freshmen must achieve a cumulative average of 1.6 by the end of their first semester and an average of 1.3 by the end of their first year, sophomores must attain an average of 1.8, and juniors must have an average of 1.9. Freshmen who have not achieved the required average by the end of their first semester will be warned that their work is below acceptable standards, and students so warned will be suspended from the College if they have not met the required average by the end of the freshman year.

Academic Honors: The baccalaureate degree is awarded *cum laude*, *magna cum laude* and *summa cum laude* to graduating seniors with cumulative averages of 3.5 or better. Candidates with averages between 3.5 and 3.7 are graduated *cum laude*, those with averages of 3.7 to 3.9 are graduated *magna cum laude*, and *summa cum laude* honors are awarded to candidates with cumulative averages of 3.9 and 4.0.

Honors Program: Beginning with the 1969 fall semester, Centenary will offer an Honors Program to interested students of outstanding ability. The program will be optional with the different departments of the College but any program elected by any department will include provision for independent study plus papers, research reports and/or showings or public performances where the arts are concerned. To be eligible for admission to candidacy for Honors a student must have a grade-point average of at least 3.0 in both major and non-major subjects, he must maintain these averages to remain in the program, he must have his candidacy for Honors approved by his major department and by the College Honors Committee, he must have attained junior standing, and he must normally have earned more than half of his credits at time of admission to the program in residence at Centenary College. Candidates for Honors must also spend a minimum of two semesters in the program to qualify.

Attainment of departmental honors does not supplant traditional graduation honors. Thus a student may graduate "Bachelor of Science, *magna cum laude*, with Honors in Physics," or "Bachelor of Arts, with Honors in English," or "Bachelor of Science, *summa cum laude*."

Interested students should consult department chairmen for information.

Special Program For Independent Study: A student who completes his first year of full-time study with a grade-point average of at least 3.8, may (with the recommendation of his faculty adviser) apply for permission to design his own course of study for the remainder of his degree program. Application for the program is to a faculty committee, of which the Dean of the College is chairman. (The committee will, under exceptional circumstances, consider applications with adviser's recommendations for students who do not meet the grade-point requirement.) If the committee approves the application, it will appoint a supervising

committee for the student to work with for the remaining three years of study. If the student has completed a typical freshman program, he will not be subject to any other core curricular requirements, nor the requirements of any regularly constituted major, except as his supervising committee may direct.

Upperclass students who have a cumulative grade-point average of 3.8 and/or their adviser's recommendation may apply for permission to complete their degree programs under this plan. Transfer students who meet the other requirements for this program may qualify for admission to it after one year's work in residence at Centenary. Full information about the program may be obtained from the Dean of the College.

Grading System: At the end of each semester, letter grades are given in each course. These grades, their general significance, and their equivalent quality points (used in computing averages to determine academic standing) are as follows:

- A—work of high distinction; four quality points per semester hour
- B—above average work; three quality points per semester hour
- C—average work; two quality points per semester hour
- D—passing work, but below average; one quality point per semester hour
- F—failing work; no credit, no quality points; course credit counts as work attempted in calculating averages
- P—the passing grade recorded when a student takes a course under the Pass-Fail system (see p. 54); no quality points; the credit given is not used in calculating averages
- I—incomplete work, given only when emergency prevents the student from completing final examination or other concluding work of the course at the scheduled time. This temporary grade must be removed by completion within one semester of the time it is assigned, or it is automatically converted to a permanent F.
- W—withdrawal; no credit, no quality points.

At mid-semester during each term, instructors report to the Dean of the College all grades averaging below C. These are not official grades, but they are used as the basis for warnings that improvement is necessary. Students who receive F reports at midterm may not pre-register.

Changing courses, Major, Degree Curriculum: After registration is ended, a charge of \$5 will be made for any change of courses (drops and/or adds) not initiated by the College. Classes may be dropped or added only with permission of the instructors concerned and with the approval of the Dean of the College. Courses for credit may be added only up until the date indicated in the official Academic Calendar.

Changes from one major or degree program to another may be made with the approval of the advisers concerned. If a student drops a course after the last day specified by the official Academic Calendar, he will receive an F in the course. Permission after the deadline will

Centenary
College

not be given to change from "credit" to "audit." The College reserves the right to drop any student from any course at any time for sufficient cause.

Withdrawal: If it should become necessary for a student to withdraw from the College, he must secure the permission of the Dean of the College and he must complete written forms available in the Dean's office. If the process of withdrawal is not properly completed when the student leaves the College, he will receive an F grade for all courses in which he is enrolled.

Class attendance: Students are expected to attend every meeting of their classes, and in case of reasonable cause or circumstances beyond their control, it is their individual responsibility to report circumstances to the instructor. Students who are frequently absent, who are absent more than four times in classes meeting three times weekly, or absent more than three times in the twice-weekly courses subject themselves to being dropped, taking special examinations or completing extra work assignments. Absences from consecutive class meetings for a week will be reported to the Dean of Students. Unexcused absence from a final examination may earn an F in the course.

Chapel and Assembly Attendance: All fulltime students are required to attend Thursday Chapel services, the Willson Lectures, and all-college convocations. The requirement is satisfied if a student attends

at least two-thirds of the Chapel programs. A grade of F will be given and an additional hour of credit must be earned in a subject approved by the Dean if less than the minimum number are attended.

Probation and Dismissal: Academic probation is a warning measure. A student will be placed on probation if his cumulative average falls below the standards set by the faculty for his particular classification (see page 43), or if at the end of any year his cumulative average in courses taken in his major falls below 2.0. Probation is for a period of one year, but a student who could achieve good standing by attendance at the Centenary Summer Session may petition the Dean of the College for an extension of his probation. Any student who fails to achieve good standing by the end of his probationary period will be suspended from the College for a minimum of one semester. A student so suspended may be readmitted to the College by the Dean, but he will be placed on probation and allowed only one semester to improve his academic standing. Readmission is not automatic, and application for

*College
Regulations*

centenary
college

readmission must be submitted in writing to the Dean of the College. A second suspension constitutes permanent dismissal from the College.

Final Examinations: All students are required to take the written examinations of from two to three hours duration at the end of the semester in all courses except those in which the material required does not lend itself to this type of measurement. An exception to this is the senior candidate for a baccalaureate degree whose work is of A or B quality. If the instructor of the course permits, he may be excused from the examination in that course.

Course Sequence: Students who have received F in a course will not be permitted to enroll in a more advanced course in the same subject until they have repeated the course with a passing mark. It is possible, but not recommended, for a student who has failed the first half of a year course to enroll in the second half if he has the approval of the Dean and the instructor. Students who have received an I grade in a course may, with the permission of the instructor, enroll in a more advanced course in the same subject.

English Proficiency: During the junior or senior year, all candidates for degrees must pass an English proficiency test consisting of a short theme on one of a choice of subjects. Those students who fail

this test are referred to members of the English Department for counseling. These students must take the test again and pass it.

Graduate Record Examinations: All seniors are required to take the Graduate Record Examinations, which are given in the spring and the fall of each year. Any student who fails to take the examinations at a time scheduled by the College may take them at a time scheduled by the Educational Testing Service and supply the College with a report of his scores.

Correspondence Courses: Centenary College does not offer correspondence courses, but a limited amount of elective credit may be earned by correspondence study with accredited colleges or universities.

Centenary will accept only those courses which the institution involved would accept toward its own baccalaureate degree. Neither courses in the student's major field nor those specifically required for graduation may be taken by correspondence. Taking of courses for

correspondence credit is permitted only by special arrangement with the Dean of the College, and students taking such courses may have to pass a special examination at the Dean's discretion or that of the chairman of the department or division in which the student is majoring.

Pass-Fail Courses: Junior and senior students may enroll for one course each semester for degree credit but not for letter grade. The usual credit will be given for the course if the student completes the work satisfactorily, but the grade recorded will be either Pass or Fail. Neither courses in the core curriculum nor in the student's major may be taken on the pass-fail basis, and a maximum of four such courses is allowed each student. A student may not change a pass-fail registration to a regular enrollment nor a regular enrollment to a pass-fail after the two-week deadline for changing courses.

Washington Semester Program: Certain selected students are permitted to spend one semester of their junior year at the School of Government and Public Administration of The American University in Washington. The purposes of the program are to provide an opportunity for students to observe their government in action, to perform individual research under careful supervision, and to exchange ideas with students from many other institutions. Each participating student works on an individual project, selecting three courses to complement his program. Projects and courses are chosen in consultation with the faculty adviser, and credit for the semester is granted by Centenary. Students interested in this program should consult the Department of History and Government.

Monterrey Summer Session: Students of Centenary are eligible to apply for admission to the summer session at the Instituto Tecnológico in Monterrey, Mexico. Six semester hours of college credit may be earned in any level of Spanish, history, economics, sociology, and other subjects. The work is accredited by the Southern Association of Colleges and Schools. Application forms may be obtained from Dr. Leroy Vogel, chairman of the Department of History and Government, who accompanies the students each summer.

DEGREE REQUIREMENTS

To qualify for the baccalaureate degree at Centenary a student must:

1. Earn no less than 124 semester credit hours of work with an average of two quality points per semester hour. Of these credit hours, 120 must be in subjects other than physical education activities. The work of the senior year, totaling not less than 30 semester hours, must be taken in residence, except as hereinafter specified.

2. Satisfy the attendance requirement in General Education 121 (Assembly) for each semester in which he is enrolled as a fulltime student. (Senior students are referred to p. 43.) This regulation applies to all students no matter under which year's *Catalogue* they first matriculate.

3. Meet the basic requirements for the degree to be earned.

4. Meet the requirements for a departmental or a divisional major.

5. Maintain a quality point average of 2.0 or higher in courses taken in the department or division of the major and of 2.0 in all other work as well.

6. File a degree plan in the Office of the Registrar before the last semester of the senior year.

7. Be present at the Commencement exercises to receive the degree conferred.

8. Discharge all financial obligations to the College.

9. Meet the requirements of a *Catalogue* published in one year of his attendance and within five years of his graduation.

Foreign Language Requirements: Candidates for the Bachelor of Science degree in elementary education, engineering science and physical education can satisfy the requirements with one year of foreign language in college. All other candidates for B.A. and B.S. degrees will be required to complete the second year (courses numbered 201-202) of a foreign language. When two years of a foreign language have been taken in high school, this requirement can be met without taking the first year of college work.

Core Curriculum: Sixty semester hours of prescribed work are required of all students, including six hours of Religion 201-202. Members of churches which specifically forbid the study of religion at a Protestant institution may be allowed to meet the religion requirement by taking six hours of work chosen from Philosophy 301 and 302. Required work includes:

English 101-102, 201-202	12 hours
Religion 201-202 (note exception above)	6 hours
Natural Science with Laboratory	8 hours
Mathematics (3 hours in 105 or higher)	6 hours
Physical Education	4 hours
Social Science	12 hours
Foreign Language 201-202 (note exception above) .	6 hours
Speech 200	3 hours
Great Issues (General Education 402)	3 hours
	60 hours

Recommended Freshman Study Course: During the freshman year students do not have to specialize. All subjects normally taken are courses which will be needed no matter what major is elected. Even where a major has been decided upon, the faculty adviser will allow or recommend certain variations. Although exceptions will be allowed, the general recommended course for freshmen is:

English 101-102	6 hours
French, German, Spanish or Latin	6 or 8 hours
Mathematics	6 hours
Chemistry, Biology, Geology, Physics or Astronomy	8 hours
Physical Education	2 hours
	30 hours

Exceptions: When a student arrives at Centenary, he is given placement tests. With these test scores and with his high school record, his faculty adviser will confer with him before registration. If it appears that the general recommended course is not advisable in a particular case, he will suggest that the student postpone one of those courses until later, and take instead a course in history, speech or whatever may best suit his interest and preparation. For certain areas of interest, it is important to take specified courses in the proper order. Students should particularly note the sections on pre-professional programs. Every effort is made to keep schedules flexible in a way that will make work most interesting and profitable. The faculty adviser, just before registration, will assist in this matter.

Other Baccalaureate Degrees: To qualify for a second baccalaureate degree, a student must present at least 30 additional semester credit hours of work and must meet all requirements for a new major. At least 24 of these 30 hours must be taken in residence. The candidate must meet the requirements of the catalogue of the year he enrolled for the second degree and must complete them within five years. No student is eligible for more than two undergraduate degrees at Centenary.

Double Majors: A student who satisfies all requirements of more than one major may have both majors entered upon his permanent record. A student must select which degree (if two different degree programs are involved) will be designated on his diploma. If only one degree program is involved, he may choose to have both majors listed upon his diploma, but no student may qualify for more than one degree or more than one diploma at any Commencement.

V

COURSES OF INSTRUCTION

Centenary College offers three degree programs, one leading to the Bachelor of Arts, one to the Bachelor of Science, and a third to the Bachelor of Music. B.A. degree programs offered include majors in art, chemistry, economics, education, English, French, Spanish (or any combination of French, German, Latin and Spanish), history-government, mathematics, music, philosophy, psychology, sociology, religion, speech and drama, and speech education. B. S. degrees include biology, business, chemistry, elementary education, geology, physics and engineering science.

The College also offers several interdisciplinary programs, including the B.A. in humanities, the B.S. in social sciences, and the B.S. in natural sciences. The divisional major is specifically designed for students wishing a broad background in a general area of knowledge rather than specialized training in a single subject. It is suited to those students who plan to take graduate study in schools of business, education, engineering, law, dentistry, medicine, or theology. It is also recommended for those who do not plan intensive study in a single limited area of knowledge.

In cooperation with Columbia University, Louisiana Polytechnic Institute, Texas A & M, and the University of Arkansas, Centenary offers the "three-two" program in liberal arts and engineering science. Under this program, students enrolling satisfy three years of liberal arts requirements at Centenary for the B.A. degree, and follow this with two years of professional work toward the B.S. at the chosen institution.

Students interested in the "three-two" professional program for engineers should consult with the chairman of the Department of Physics; those interested in pre-dental, pre-medical and other medical arts should consult with the Biology Department chairman; the chairman of the Department of History and Government should be consulted for the pre-law curriculum; and those considering the pre-theology program as preparation for seminary should consult with the chairman of the Department of Religion.

EXPLANATION OF COURSE LISTINGS

On the following pages are listed the courses which students may take. In addition, a schedule of classes is published prior to the date

5
Course
C
Instruction

of registration for each semester which lists each course to be offered that session, together with the hour each class meets, the day and the place.

Courses numbered 100 to 199 inclusive ordinarily are taken in the freshman year; those numbered 200 to 299 in the sophomore year; and those numbered 300 to 399 in the junior to senior years; and those from 400 to 499 in the senior year. Those beginning with zero carry no college credit.

Unless otherwise specified in the course description, courses normally offered in the first semester bear odd numbers while those offered in the second semester are evenly numbered. Courses bearing a single number continue for one semester only, and those with double numbers continue through two semesters.

Centenary courses organized so that the student may enroll in and receive credit for either half without the other half have double numbers separated by a comma: 205, 206. Courses requiring the first half as prerequisite for the second half have double numbers separated by a hyphen: 205-206. Semester courses so closely integrated that both halves must be completed before credit is received in either have double numbers separated by hyphens and enclosed in parentheses. An example of the latter instance would be: (101-102).

When a course carries three figures relating to hours, the first figure designates the number of lecture hours a week, the second the

number of lab hours a week, and the third the number of semester hours credit earned. An example of this type of listing would be 3-3-4, or three lecture hours a week, three lab hours a week, and four hours of credit for the course.

ART

Lecturers: Adams, Friedenberg, Sutton

5
Course
O
Instruction

Major Requirements

The courses in the department of Sociology fall into three somewhat overlapping areas. These are courses purposed to develop the general culture of the student; courses supporting other curricula for which knowledge of social institutions and behavior is essential; courses needed to prepare the student for a specific profession.

A major in art must take 38 semester hours in the department, including the following courses which should be taken consecutively: 103-104, 203-204, 303-304, 401-402 and 403. The remaining departmental hours are taken in art history, the graphic arts and materials and techniques. In addition, two hours of music and six hours of speech and drama must be selected; however, the requirements in music and drama may be met by Fine Arts Survey 197-198.

01. Ceramic Jewelry

No Credit

Pouring, glazing and firing ceramic jewelry and some instruction in the use of a press mold. Offered in the evening division.

101. Survey History of Art **3 Hours**
An historical survey of painting, architecture, and sculpture from prehistoric times to the Italian Renaissance.

102. Survey History of Art **3 Hours**
A history from the Italian Renaissance to the contemporary schools in Europe and the United States.

103-104. Drawing and Composition for Beginners **6 Hours**
Basic training stressing draftsmanship and the elements of picturemaking. Drawings done in black and white, and in color. Outside compositions done for a weekly criticism class. This course, or its equivalent, is prerequisite to all advanced drawing and painting courses. Six studio hours a week.

105-106. Introduction to Art **6 Hours**
A beginner's course for students whose field of concentration lies in other departments and who have had no previous training in art. Not open to art majors or to those who have had 103-104. Six studio hours a week.

107. Art Appreciation **1 Hour**
A non-technical course for the general college student. No credit toward an art major. Arts of the past and present studied in relation to their social and cultural backgrounds.

203-204. Advanced Drawing and Composition **6 Hours**
The essentials are still stressed with more experiments with different media and methods of expression. Outside compositions done for a weekly criticism class. Six studio hours a week.

205-206. Advanced Painting in Water Colors **6 Hours**
Six studio hours a week.

207. Arts and Crafts **3 Hours**
A development of basic skills in handicrafts, basic concepts, and techniques in art. Especially helpful for the elementary school teacher, but not limited to teachers. Open to anyone, with instructor's approval.

208. Interior Design and Decoration **3 Hours**
An historical survey of interior design from ancient Egypt to the present day, with special emphasis on the styles and trends of each of the well-known periods. The course is primarily academic, but some laboratory work is required.

209. Commercial Art **3 Hours**
Offered in the evening division.

301-302. Graphic Arts **6 Hours**
Prerequisite: Art 204 or instructor's approval. A study of the processes involved in the making and printing of etchings, woodcuts, linoleum block prints, and lithographs, with lecture and studio practice. Three hours a week with outside work.

303-304. Painting**6 Hours**

Proficiency in the use of oil paints is regarded as basic, but the student is encouraged to experiment with other media. Outside compositions will be brought in each week. Six studio hours a week.

305. History of American Art**3 Hours**

The cultural and artistic development of our nation over the last 400 years as expressed in painting, sculpture, architecture, graphic arts, the decorative arts, and city planning.

307. Materials and Techniques**3 Hours**

Prerequisite: 204 or instructor's approval. A systematic study of the less common methods of painting, including encaustic, polymer, egg-tempera, casein, and plastics, and an examination of the techniques of some of the old masters. Lecture, studio, and outside work.

401-402. Advanced Painting**6 Hours**

During the final year the student is encouraged to develop a personal philosophy of painting. Instruction will depend largely upon the needs and natural inclinations of the individual student. Each student will have a Senior Exhibit of his best work. Outside compositions will be brought in each week. Six studio hours a week.

403. Art Seminar**2 Hours**

Prerequisite: Instructor's approval. A review of the history of art, and the facts and principles which are emphasized in all of the courses required for a major in art. Second semester.

421-422. Honors Course in Art**6 Hours**

Open to qualified art majors. Work may be done in research and reading, or in painting. The student will follow a work plan arrived at in cooperation with the chairman of the department, and must consistently furnish evidence of seriousness of purpose.

Lecturers: McFarland, Montgomery

Major Requirements

The courses in this department are designed to emphasize the general cultural values of the biological sciences and the practical aspects of biology as related to man, as well as to provide a broad background for graduate study in this science or for the numerous professions related to this field of study. A major must take 34 semester hours in biology,

of which 16 must be in courses numbered 300 or above. Biology 101-102 is required for all courses in the department. Additional requirements are Mathematics 106, 201, Chemistry 201-202, Physics 202 and 203.

101-102. Principles of Biology

3-0-6 Hours

A study of general principles and phenomena common to both plants and animals. Emphasis is placed on the cell concept, metabolism and its physical and chemical basis, the morphology and life history of representative plants and animals, ecology, heredity and evolution.

111-112. Principles of Biology Laboratory

0-3-2 Hours

A laboratory course required of all students enrolled in Biology 101-102 and to be taken concurrently.

201. Plant Morphology

3-3-4 Hours

A phylogenetic study of plants from the simpler to the more complex specialized forms. Comparison of plants through the ages, living and fossil relationships, emphasizing development and reproduction of the plant body.

202. Plant Taxonomy

3-3-4 Hours

A course in the identification and classification of plants native to this area or found in local cultivation.

203. Comparative Anatomy of Vertebrates

2-6-4 Hours

A comparative study of the vertebrate systems and their phylogenetic development. Dissections are made of the shark, mudpuppy and cat.

204. Embryology

3-3-4 Hours

Gametogenesis, fertilization and early embryonic development of chordates; vertebrate ontogeny as seen in the chick and pig.

210. Introduction to Entomology 3-3-4 Hours

A survey of class Insecta with emphasis on the identification and control of insects which affect the health of man, and of those insects which are of economic importance to the South. 1969-1970 and alternate years.

217. Human Anatomy and Physiology 3-3-4 Hours

A basic course designed especially for students interested in physical education, medical technology, physical therapy, and nursing.

302. Microtechnique 2-6-4 Hours

Preparation of tissues for microscopic study. 1970-1971 and alternate years.

303. Plant Physiology 3-3-4 Hours

Prerequisite: Chemistry 101-102, 111-112. A study of nutrition, growth and reproduction of plants and their physiological response to environment factors. 1970-1971 and alternate years.

304. Invertebrate Zoology 3-3-4 Hours

The taxonomy, morphology, physiology, and life histories of the invertebrate animals. 1970-1971 and alternate years.

305. Ecology 3-3-4 Hours

Prerequisite: Chemistry 101-102, 111-112. A study of the interrelations of living things with reference to their nonliving environment.

306. Microbiology 3-3-4 Hours

Prerequisite: Chemistry 101-102, 111-112. A general course dealing with the morphology and physiology of microorganisms, including their relation to disease, sanitation, food preservation, dairy products, soil fertility, and industry. Some consideration is given to pathogenic fungi and to viruses. 1969-1970 and alternate years.

313. Genetics 3-3-4 Hours

Principles of heredity and their practical application in the breeding of plants and animals.

402. Human Physiology 3-3-4 Hours

Prerequisite: Biology 203, Chemistry 202. Fundamental principles and recent advances in the study of human physiology. 1970-1971 and alternate years.

406. Histology 3-3-4 Hours

Prerequisite: Biology 203 or 217. Microscopic study of the tissues and organs of the human body. 1969-1970 and alternate years.

409, 410. Biology Problems 1, 2, or 3 Hours

Prerequisite: 20 hours of biology and consent of staff. Special problems in biological investigations designed to introduce the student to biological research. A written report is required.

CHEMISTRY

Professor Hanson, *Chairman*

Associate Professor: S. A. Taylor

Assistant Professors: Hood, C. B. Lowrey, Seidler

Major Requirements

The Chemistry Department offers a program to serve three types of students: those who plan to become professional chemists in education or industry, those who expect to use chemistry in other occupations or professions, and those who desire a science course for a broader background in science and an introduction to the scientific method of thought. The Chemistry Department is one of a limited number of departments which are approved by the American Chemical Society for the training of chemists.

The Chemistry Department offers two degree plans, one leading to a Bachelor of Science and the other leading to a Bachelor of Arts. For the B.S. in Chemistry, majors must complete Chemistry 202, 206, 215, 352, 354 and their prerequisites; two additional semesters of advanced chemistry (three semesters of advanced chemistry for the A. C. S. approved major); mathematics through differential equations; Physics 202, 203; German or French 202; and the core curriculum requirements in the humanities and social sciences. For the B.A. in Chemistry, majors must complete Chemistry 202, 206, 215, 352, 354 and their prerequisites; mathematics through Calculus IV; Physics 102, 202; and the core curriculum requirements in the humanities and social sciences.

101-102. General Chemistry**3-0-6 Hours**

First semester: A study of atomic and molecular structure, the kinetic molecular theory, oxidation-reduction reactions, and stoichiometric relationships in chemical reactions.

Second semester: A study of the theory and principles of chemical equilibria, and the properties of the more common elements and their compounds. Either of these semesters may be waived for students who demonstrate that they are proficient in these subject areas.

105. Introduction to Chemistry**3-0-3 Hours**

A study of the impact of chemistry on the activities of man at various periods in history. Fundamental concepts and principles of chemistry are introduced where necessary for an understanding of the topics discussed. Intended for non-science majors. May not substitute for any other chemistry course. Offered each semester.

111-112. General Chemistry Laboratory**0-3-2 Hours**

Individual laboratory work designed to accompany Chemistry 101-102. First semester: A study of the techniques employed in chemical investigations and theories and fundamental principles of chemistry. Quantitative methods of analysis are introduced. Second semester: Selected gravimetric and volumetric analyses are performed. Inorganic qualitative analysis methods are studied.

115. Introduction to Chemistry Laboratory**0-3-1 Hours**

Laboratory to accompany Chemistry 105. Experiments are selected to acquaint the student with the scientific method and the general principles of inorganic and organic chemistry. May not substitute for any other chemistry course. Offered each semester.

201-202. Organic Chemistry**3-3-8 Hours**

Prerequisite: Chemistry 102, 112. A systematic study of the various series of organic compounds and the mechanisms by which they react. Mono-functional compounds are studied in the second semester. The laboratory work is on a semimicro scale and includes introductory qualitative organic analysis.

206. Organic Preparations**0-3-1 Hours**

Additional laboratory work to accompany Chemistry 202. Selected organic synthetic methods are studied and syntheses are carried out on a macro-scale. Offered yearly.

215. Analytical Chemistry**3-6-5 Hours**

A study of the theory of analytical separations and the qualitative and quantitative determination of components of mixtures by selected gravimetric, volumetric, and instrumental methods of analysis. Offered yearly.

351-352. Physical Chemistry**3-0-6 Hours**

Prerequisite: Chemistry 215, Math 202, and Physics 102, 202. An introduction to the laws that explain the properties of gases, liquids, crystals and colloids, and the behavior of their mixtures; chemical thermodynamics; kinetics; electrochemistry; photochemistry; atomic and molecular structures.

6
Course
C
Instruction

353-354. Physical Chemistry Laboratory

0-3-2 Hours

Laboratory work designed to accompany Chemistry 351-352.

421. Qualitative Organic Analysis

2-6-4 Hours

Prerequisite: Chemistry 202 and 426. A study of the theory and practice of the separation of organic mixtures and the identification of the individual components of the mixture. Semimicro procedures are used for both chemical and instrumental methods. Offered yearly.

422. Inorganic Chemistry

3-0-3 Hours

Prerequisite: Chemistry 352 or concurrent registration in 352. An advanced course in which a study is made of the theories of valency and bonding, and of the structure and properties of selected elements and their compounds. Offered yearly.

426. Advanced Analytical Chemistry

3-6-5 Hours

Prerequisite: Chemistry 352 or concurrent registration in 352. A study of the theory and application of instrumental methods of separation and analysis. Includes absorption and emission spectroscopy, chromatographic methods, and electrochemical methods. Offered yearly.

427. Undergraduate Research

1-6-3 Hours

Prerequisite: Senior standing in chemistry or consent of the instructor. Work may involve library and laboratory research, or extensive library research on selected topics. A written report and an oral presentation is required on all work done. Offered on demand.

ECONOMICS AND BUSINESS

Professor Berton, *Chairman*

Professors: Hickey, Pate

Associate Professor: Pearson

Instructor: Smith

Lecturers: Beard, Casavant, Cole, Couch, Freelund, Hall, Holland, Lockridge, Mayo, McNiece, C. McPherson, Tillman, Trichel

Economics

Major Requirements

The economics major offers training for the citizen who to a degree must be an economist in his daily life; for the business man who must make decisions in the light of economic developments; and for the economist who is concerned with the manner in which the economic system as a totality operates. The B.A. in economics requires 30 semester hours in economics plus Business (203-204). The 30 hours must include Economics (201-202), which is prerequisite for all 300 and 400 level courses, Economics (301-302), 329 and approval of course of study by departmental adviser. Mathematics 106 is required for the class of 1972 and after. Business 414, 425, and 426 may be used to satisfy major requirements in economics. Business (203-204) is prerequisite for all 300 and 400 level courses.

6
Course
C
Instruction

123. Economic History of the U. S. 3 Hours

A survey course tracing the development of agriculture, industry and commerce in U. S. history. Offered yearly.

201-202. Principles and Problems of Economics 6 Hours

Economic concepts, basic principles and laws, institutional development and economic analysis. Each semester.

(301-302). Statistics 6 Hours

Frequency distribution analysis, time series, index numbers and simple correlation. Recommended for majors in education, psychology, sociology and business. Each semester.

311. Intermediate Micro-Economic Theory 3 Hours

Essentials of the neo-classical theory of production, value and distribution theory. Yearly.

312. Intermediate Macro-Economic Theory 3 Hours

Essentials of aggregate economic analysis. Yearly.

324. Labor Problems 3 Hours

A study of the development and place of organized labor in modern economic society. Yearly.

326. Public Finance 3 Hours

A study of governmental functions and revenues, shifting and incidence of taxation, public expenditures and their effects, and fiscal policy. Yearly.

329. Money and Banking 3 Hours

The structure and operation of our money and banking institutions, with emphasis on the place of money and banking in the economic life of the community. Yearly.

402. Growth and Stability 3 Hours

Prerequisite: Economics 329. Factors determining economic development with emphasis on the problems of cycles and inflation. Offered on demand.

410. Managerial Economics 3 Hours

Application of the theory of profits, competition, demand and costs to analysis of decision-making by firms. Yearly.

411. Government and Business 3 Hours

The economics of government regulation in the institutional setting of the U. S. and the private enterprise system. Recommended for government, history and sociology majors. Yearly.

421. Comparative Economic Systems 3 Hours

The nature and operations of alternative systems for determining resource allocation and utilization. (Same as Government 421.) Offered yearly.

440. International Economics 3 Hours

Foreign trade and finance in today's economic and political setting. Recommended for government, history and sociology majors. Offered on demand.

470. Seminar in Economics**1-3 Hours**

Independent study by invitation only. By request.

Business

There is a general agreement today that the businessman needs training in the liberal arts. Courses in the humanities, in mathematics and natural sciences, and in social sciences equip the businessman with the analytical ability and the breadth and flexibility of mind necessary to cope with a technological, social, economic and political environment that changes with bewildering rapidity.

Accordingly, Centenary deemphasizes "training for the first job" because of the danger of concentration on a narrow range of factual knowledge and the development of largely routine skills, none of which might be useful except in certain specific techniques. The narrower the student's training the less equipped he will be to cope with change and to learn from experience on the job.

In the courses designed to train the student in the area of business, Centenary therefore places emphasis on a broad base of fundamental knowledge and the development of certain basic skills on which the student can build through experience obtained after college. To this end the business curriculum is built around the quantitative and behavioral sciences. The quantitative area is stressed so that the student will learn the use of quantitative data for decision making. The behavioral sciences are emphasized so that the student will better understand the behavior patterns of formal organization and the problems which arise when men attempt to work closely together.

Major Requirements

For the B.S. in business, the requirement is 30 semester hours of business, which must include Business (203-204), Economics (301-302), Economics 329; and Business 321, 323, and 346. Mathematics 106 is required for the class of 1972 and after. The remaining hours may include Economics 311, 324, 410 and 411. Prerequisite: Business (203-204) and Economics (201-202) are prerequisite for all 300 and 400 level courses.

The balance of the 124 hours required for graduation should be chosen from the following recommended electives: Humanities: English 309, 312; Foreign language; General Education 197, 198; Philosophy 201,

202, 203, 302, 303, 304; science and mathematics: Chemistry 105, Geology 101, Mathematics 202, Physics 111-112; social science: Government 201, 309, 310, History 313, 314, 321, 322, Psychology 201, 311, Sociology 101, 102.

(203-204). Principles of Accounting 6 Hours

Prerequisite: Sophomore standing or consent of instructor. Study of the theory of accounts, the fundamental accounting equation, and the preparation and analysis of statements. Yearly.

305-306. Intermediate Accounting 6 Hours

Application of accounting theory in income determination, in asset evaluation, and in the history of accounting thought. Yearly.

307. Financial and Administrative Accounting 3 Hours

Management's use of accounting data for planning and control purposes. A course designed for those who will need more than a perfunctory knowledge of accounting, but less than that demanded of career accountants. Offered yearly.

309. Cost Accounting 3 Hours

The principles, theory and procedures of accounting are applied to job order, process, and standard cost systems. The preparation, analysis and interpretation of statements based upon cost data. Yearly.

321. Principles of Management 3 Hours

A study of organizational theory, policies and procedures common to any institution charged with the responsibility of achieving a common goal. Yearly.

323. Business Law 3 Hours

A study of the legal aspects of business transactions. Introduction to personal property contracts as well as agency, partnership, negotiable instruments, sales and conditional sales contracts, and to the law of commercial paper. Yearly.

328. Human Relations 3 Hours

Prerequisite: Business 321. A study of individual, small group and organizational behavior in the business setting. The problems of motivation and communications are studied in goal-oriented activity. Yearly.

346. Principles of Marketing 3 Hours

A study of the distribution of goods and services from producer to consumer. Channels of distribution, marketing functions, institutions and costs will be studied. Yearly.

405. Marketing Logistics 3 Hours

Prerequisite: Business 346. Blends the principles of economics and marketing with the components of logistics to give a comprehensive study of the physical flow of goods in our society. Yearly.

407. Advanced Accounting 3 Hours

Theory and problems related to partnerships and consolidations. Yearly.

408. Quantitative Decision Making **3 Hours**

Prerequisite: Economics 301-302. A study of the development and use of quantitative analytical techniques in decision-making. Offered on demand.

409. Auditing **3 Hours**

Prerequisite: Business 305-306. A study of the principles underlying the verification of accounting records and statements, with emphasis upon the making of working papers and the writing of audit reports. Yearly.

412. Income Tax **3 Hours**

Study of the federal regulations, preparation of individual, partnership, and corporation income tax returns. Yearly.

413. C. P. A. Problems **3 Hours**

A study of questions and problems given by the American Institute of Accountants in the semi-annual C. P. A. Examinations. Permission of instructor. Offered on demand.

414. Research Techniques and Forecasting **3 Hours**

Prerequisite: Economics (301-302). The formulation of the problem, data sources and data problems formulation of the hypothesis and basic research design and techniques are studied. Offered on demand.

415. Electronic Computers and Their Use **2 Hours**

Programming and data processing systems of electronic computers. Offered on demand.

425. Business Finance **3 Hours**

A study of the channels for obtaining capital for corporate promotion, expansion, and reorganization; financial management analysis. Yearly.

426. Investments **3 Hours**

A study of the principles and problems determining sound investment policy. Yearly.

471. Seminar in Business Policies **3 Hours**

A reading and research course open to seniors by invitation.

Evening Division Courses

Courses are offered on demand. Prerequisite for credit: Approval of instructor.

207-208. Petroleum Accounting **6 Hours**

A specialized course in petroleum accounting presenting methods and procedures used in the oil and gas industry.

209-210. Public Utility Accounting **6 Hours**

A course designed to acquaint the student with accounting procedures followed by natural gas, electric, and telephone companies.

7
Course
C
Instruction

301. Real Estate Principles**3 Hours**

A survey course dealing with the fundamental branches of real estate, including advertising, selling, financing, building construction, building management, and settlement. Offered in cooperation with the Shreveport-Bossier Board of Realtors.

310. Intermediate Cost Accounting**3 Hours**

Advanced process cost procedures: "expected" and "basic" cost systems; special procedures for accounting for avoidable and unavoidable spoilage; fundamentals of direct costing.

320. Personnel Management**3 Hours**

A survey of the organization and administration of personnel departments, education and training policies, wage policies, and the maintenance of favorable industrial relations.

322. Small Business Operations**3 Hours**

Organization and operation of a small business, including capital and credit and managerial problems.

343. Salesmanship**3 Hours**

Techniques of selling related to buyer and seller.

348. Credit and Collections**3 Hours**

The fundamentals of credit policy.

EDUCATION AND PSYCHOLOGY

Professor Gwin, *Chairman*

Associate Professor: Garner

Assistant Professors: Hallquist, Stringfellow

Instructor: Casavant

Lecturers: Gucker, Hayes, Locke, Posey, Riser, Rosenzweig, Shaw and Stockard

Education

The Department of Education and Psychology has responsibility for the teacher-education curriculum of the college, and it provides elective courses for those interested. Its goal is to produce teachers who are professionally prepared, rich in the liberal arts, knowledgeable in the issues of democracy, and strong morally.

All students entering the teacher-education program after June 1, 1968, will later enroll in the tutorial and clinical program and not in formal courses in professional teacher education. In this program the student works with a tutorial professor in an individualized schedule of readings, seminars, lectures, and independent study in the theory of education.

Practice is gained by the students in concurrent clinical experiences in a variety of local schools and agencies. The students are taken through a carefully planned sequence of observing, aiding and substituting for master teachers. These master teachers are employed by the local schools and they hold appointments as lecturers in education at Centenary College. Students are supervised by both tutorial professors and the master teachers throughout the three years of the program.

The teacher-education program of the department meets the requirements of Louisiana law. Candidates for teaching certificates in the state fulfill the requirements for elementary or high school certificates. The student teaching required for certification is done in schools in the area. The department provides a teacher placement bureau for all who are registered in the program.

College graduates who wish to do work to become certified teachers, or any other teacher education students not already admitted to the College who wish to have their credentials evaluated must pay a fee of \$15.00 for this service. Payment of this fee also entitles the student to be listed with the Centenary Teacher Placement Bureau.

Major Requirements

Students may qualify for the B.A. or the B.S. degree by satisfying the appropriate core curriculum requirements and completing a curriculum in teacher education.

The following are requirements for graduation in teacher education: Secondary education—completion of Education 211-212, 341-342, 431-432, Psychology 211; completion of core curriculum plus four more hours of natural science (at least four must be in biological science and at least four in a physical science); completion of departmental (or divisional) major requirements in either art, biology, chemistry, English, French, German, health and physical education, Latin, mathematics, music, physics, Spanish, speech education, natural science, social science; and all other regular degree requirements. The 12 hours of core requirements in social studies must include three hours of American history. Elementary education—completion of Education 211-212, 331-332, 431-432, Psychology 211; completion of core curriculum plus four more hours of natural science (at least four must be in biological science and at least four in a physical science), and all other regular degree requirements. The 12 hours of core requirements in

social studies must include three hours of American history. In addition to courses meeting core requirements, elementary education majors must take English 205, Art 207, Mathematics 100 or 115, Speech 101, Geography 205, History 207, Physical Education 239 and 321 or 424, Music 121, and Education 411.

Administrative Requirements

All students planning to certify as teachers must by the end of the sophomore year petition the selective admissions committee of the Teacher Education Advisory Council for acceptance into the Department of Education. They must meet certain requirements of grade average, oral and written communication, health, and appearance as determined by the admissions committee. An "area of concentration" in academic subjects is encouraged in elementary education.

211-212. Sophomore Tutorials in Education 6 Hours

An investigation of the history of education and the social and philosophical foundations of education. The role and relevance of psychology to the learning process. Participation in a series of observations in a variety of school and community agency learning situations. An individualized schedule of readings and seminars. Yearly.

331-332. Junior Tutorials in Elementary Education 6 Hours

Prerequisites: Education 211-212, Psychology 211 and acceptance by Teacher Education Advisory Council Admissions Committee. A study of materials, methods and problems of teaching and learning in the elementary schools. Planned participation in elementary school classrooms as a teacher's aide. An individualized schedule of readings and seminars. Yearly.

341-342. Junior Tutorials in Secondary Education 4 Hours

Prerequisites: Education 211-212, Psychology 211 and acceptance by Teacher Education Advisory Council Admissions Committee. A study of materials, methods and problems of teaching and learning in the secondary schools. Planned participation in secondary school classrooms as a teacher's aid. An individualized schedule of readings and seminars. Yearly.

400. Student-Teaching In The Grades 6 Hours

Prerequisites: Education 102, 200, 311-312, Psychology 211. Observation and teaching in grades 1 through 3. Each semester. (Not offered after September, 1970.)

401. Student-Teaching In The Grades 6 Hours

Prerequisites: Education 102, 200, 311-312, Psychology 211. Observation and teaching in grades 4 through 8. Each semester. (Not offered after September, 1970.)

410. Seminar 1 Hour

Problems of student-teaching. To be taken concurrently with student-teaching only. Each semester. (Not offered after September, 1970.)

411. Teaching of Reading in the Elementary School **3 Hours**

The values, material, and techniques useful in a developmental reading program, with coverage of professional literature in the field of reading. Each semester.

422. Student-Teaching In High School **6 Hours**

Prerequisites: Education 102, 200, 321, Psychology 211. Observation and practice teaching in the field of specialization. Each semester. (Not offered after September, 1970.)

431-432. Senior Tutorials in Education **6 Hours**

Prerequisites: Education 341-342 or 331-332. The development of content units appropriate to the student's teaching field or grade level. Intensive practice teaching, internship and/or substitute teaching under the guidance of master teachers and College faculty. An individualized schedule of readings and seminars. (To Begin Fall, 1970.) Yearly.

EVENING DIVISION

Education

102. Foundations of Education **3 Hours**

A study of minor movements and issues in education. Each semester.

200. Educational Psychology **3 Hours**

A study of the psychological adjustment of the typical student in American schools. Oriented toward the problems of the usual classrooms. Each semester.

Psychology

Major Requirements

Within the framework of natural science, psychologists attempt to understand human behavior by discovering functional relationships between behavior and conditions in the environment and the organism. The psychology major requires 30 semester hours in psychology as approved by the adviser, and 12 semester hours in a related field approved by the major adviser (sociology, biology, economics). Core curriculum requirements must be met separately and all other requirements for a B.A. degree satisfied.

Students who major in psychology must enroll in French or German.

101. General Psychology **3 Hours**

Introduces the study of human behavior in the areas of learning, personality, emotions, motivation, perception, etc. Each semester.

211. Human Growth and Development **3 Hours**

A study of the various aspects of human development from conception to age 21. Individual reading assignments concentrated in the particular age level of interest

7
Course
C
Instruction

to the student. Presentations, reports, and demonstrations of typical behavior of selected age groups required of each student. Each semester.

221-222. Sophomore Tutorials in Psychology

8 Hours

Prerequisite (or concurrently): Psychology 101. An investigation and use of the methods of the clinical approach. A series of observations of human behavior in a variety of school, community agency, and industrial situations. An individualized schedule of readings and seminars. Yearly.

321-322. Junior Tutorials in Psychology

8 Hours

Prerequisites (or concurrently): Economics (301-302), Psychology 101. A study and use of the methods of the experimental approach. A series of experiments introducing the student to a variety of topics with extended depth study of learning and motivation. An individualized schedule of readings and seminars. Yearly.

421-422. Senior Tutorials in Psychology

8 Hours

Prerequisite: Psychology 321-322. An analysis of sensation, perception, and group behavior through a series of experiments. An individualized schedule of readings and seminars. Yearly.

430. Seminar in Current Literature in Psychology

1-3 Hours

Prerequisite: Psychology 101 and approval of the instructor. A study of current psychological literature. Second semester yearly.

ENGLISH

Professor Morgan, *Chairman*

Professors: Clark, Guerin, Labor, Marsh

Assistant Professors: Gallagher, Jones

Instructors: Gary, Nelson, O'Dell

Lecturer: Buhler

The purpose of courses in English is to develop skill in written communication and to develop critical judgment and appreciation of the work of major writers in relation to their social and intellectual background. The department prepares its majors for teaching in secondary schools, for admission to graduate schools, and for those professions and vocations where liberal training and especially language competency are the principal requisites.

Major Requirements

A candidate for the B.A. in English must complete 18 semester hours of English in courses of 300 and 400 level in addition to the English requirements in the core curriculum or their equivalents. At least one course from each of the following groups is required: Medieval (321, 401); Renaissance (309, 310, 316, 402); Restoration and 18th Century (317, 318, 330); Nineteenth Century (303, 304, 330); American (305, 306, 405); Elective (307, 315, 342, 406, 407).

Art 101 or 102 and Music 143 or 144 are required. Majors expecting to teach at the secondary level must take English 307 or English 342.

101. Freshman Composition

3 Hours

A course in the principles of expository prose, with emphasis upon reading and upon writing clear, logical, and correct prose in assigned themes. Offered each semester.

102. Introduction to Literature

3 Hours

Prerequisite: English 101. An introduction to representative types of fiction, drama, and poetry, with continuing emphasis on writing. Offered each semester.

201. Major British Writers

3 Hours

Intensive study of selected writers from Chaucer through Boswell. Offered each semester.

202. Major British Writers

3 Hours

Intensive study of selected writers from Wordsworth to the present. Offered each semester.

205. Children's Literature

3 Hours

A survey of children's literature through the ages, with special attention to developing a love of reading and a knowledge of genres and motifs and to related literary

Cours
(
Instructio

matters like vocabulary-building, knowledge of other cultures, and, where appropriate, history and biography. Open only to students who are certifying in elementary education. Offered each semester.

303. Romantic Poetry and Prose 3 Hours

A detailed study of the major Romantic poets and of selected prose works which set forth the critical and esthetic standards of the Romantic movement. Offered in Fall 1969 and alternate years.

304. The Victorian Period 3 Hours

A study of representative Victorian writers, exclusive of the novel. Offered in Spring 1970 and, thereafter, in Spring 1971 and alternate years.

305. Survey of American Literature, 1630-1870 3 Hours

A survey of American writing from colonial times to about 1870. Offered yearly.

306. Survey of American Literature, 1870 to the present 3 Hours

A survey of American writing from about 1870 to the present, with attention to recent trends in the development of American literature. Offered yearly.

307. History of the English Language 3 Hours

A survey history of the language and an introduction to linguistics. Particular attention paid to phonology, morphology, and syntax. Offered in Fall 1970 and alternate years.

309. Shakespeare: Plays and Sonnets 3 Hours

A study in depth of eleven plays and the sonnets. The arrangement is basically chronological, and examples of histories, comedies, and tragedies are included. Offered yearly.

310. Shakespeare: Plays and Poems 3 Hours

A study of eleven plays not included in English 309, and of Venus and Adonis and other poems. Offered in Spring 1969 and alternate years.

315. Modern British Literature 3 Hours

A study of significant British writers from the late 19th century to the present. Offered Fall 1969 and alternate years.

316. The English Renaissance 3 Hours

A study of English literature of the late 15th to mid-17th century, exclusive of Shakespeare and Milton. Special attention is given to Spenser, Sidney, Bacon, Browne, Burton, Jonson, and Donne. Offered in Spring 1970 and alternate years.

317. The Age of Dryden and Pope 3 Hours

A study of the representative literature of 1660 to 1744, exclusive of the novel. Offered in Fall 1969 and alternate years.

318. The Age of Johnson 3 Hours

A study of the representative literature of 1744 to 1798, exclusive of the novel. Offered in Spring 1969 and alternate years.

321. Pre-Renaissance Classics in Translation

3 Hours

A critical and historical study of representative Greek and Roman epic and lyric poetry and of drama, and of the medieval synthesis exemplified by Dante. Emphasis is both on the intrinsic literary value of the works and on their relevance to the American-British cultural tradition. Offered in Fall 1970 and alternate years.

330. The English Novel in the 18th and 19th Centuries

3 Hours

A study of the English novel from its beginnings in the 18th century through the 19th century, with particular attention to historical and artistic influences. Offered in Spring 1969 and, thereafter, in Spring 1970 and alternate years.

342. Advanced English Grammar and Composition

3 Hours

A descriptive study of the structural logic and idiom of the English sentence and of the creation of precise, functional composition. Offered yearly.

401. Chaucer

3 Hours

A study of the major poems, with chief emphasis upon *The Canterbury Tales*. Offered in Fall 1969 and, as English 408, in Spring 1972 and alternate years.

402. Milton

3 Hours

A study of the poetry and of typical prose, with emphasis upon *Paradise Lost*, *Samson Agonistes*, and the minor poems. Offered in Spring 1970 and alternate years.

405. Studies in Representative American Writers

3 Hours

Intensive readings in major writers who represent significant trends in the development of American literature. Considerable work in bibliography and research, with presentation of individual papers. Offered in Fall 1970 and alternate years.

406. Literary Criticism

3 Hours

A study of the background and development of modern literary criticism, with particular emphasis upon its development after Coleridge. The influences of literary theory, the various critical theories of this century, and the problems of practical criticism are the concerns of lectures, class discussions, and papers. Offered in Spring 1969 and alternate years.

407. Independent Study

3 Hours

Prerequisites: Senior standing and permission of the chairman of the department. Either semester of senior year. The writing of a thesis and an oral examination at the end of the semester are the core of the course. The chairman of the department appoints a committee of not fewer than three faculty members to guide each student and to conduct the oral examination. Regular class sessions are not required, but the faculty members arrange seminar discussions when circumstances warrant such meetings. A copy of the thesis is filed in the College library. Offered each semester.

*Cours
Instructi*

FOREIGN LANGUAGES

Professor Beck, *Chairman*

Assistant Professors: Curbelo, Watts

Instructors: Bissell, Copeland, Curlin, DeVille, Goodwin, Shaw

Major Requirements

For a B.A. in French or in Spanish, a major in foreign languages must take 24 semester hours beyond 202; or 29 semester hours, or the equivalent, and 14 semester hours in a second foreign language. For the B.A. degree in any combination of French, German, Latin or Spanish, a student must take 26 semester hours in one of these and 20 in another, or the equivalent.

A sequence of 201-202 in a foreign language is required of all students except candidates for the Bachelor of Music degree and for Bachelor of Science degrees in business, education, engineering sciences, and physical education.

Study of one or more foreign languages will introduce the student to the accumulated culture and experience of the human race, show him the continuation of the present from the past, and provide him with some understanding of the world in which he lives.

If the student plans to be a translator, he needs to acquire a thorough reading knowledge of the language of his choice. If he plans to enter the diplomatic service or be an interpreter, he will need also to master the spoken language. If he plans to prepare to do clerical work involving foreign correspondence as a commercial attache, a secret service employee, or a foreign trade expert, he will need to acquire skill in both speaking and writing the language of the countries in which he is interested.

French

(101-102). Elementary French

3-2-8 Hours

Oral practice and pronunciation, elementary composition, reading and grammar.

201-202. Intermediate French

6 Hours

Prerequisite: French (101-102). Conversation, more difficult reading, composition and grammar.

203-204. Advanced Grammar and Intermediate Conversation 3-2-8 Hours

Prerequisite: French (101-102). Strongly urged for all French majors and those planning to teach in secondary schools. Not to be substituted in any case for 201-202. Laboratory work and instruction via the oral method. More complex grammatical constructions, idiom drills, compositions and phonetics.

301-302. A Survey in French Literature 6 Hours

Prerequisite: French 201-202. Required for French majors. Studies in texts from the Chansons de Gestes down to the present day.

303. Modern and Contemporary Drama 3 Hours

Prerequisite: French 201-202. Lecture, outside reading, and study in class from such dramatists as Cúrel, Rostand, Porto Riche, Bernstein, Lavedan, Bataille, Pagnol, Giraudoux, Sartre, Salacrou, and Anouilh. 1970-1971 and alternate years.

304. Contemporary Novel and Short Story 3 Hours

Prerequisite: French 201-202. Lecture, outside reading, and study in class of such writers as Gide, Proust, Colette, Mauriac, Romain, Duhamel, Morand, Lacretelle, Ayme, Troyat, Camus and Boule. 1970-1971 and alternate years.

401. Moliere, Corneille, and Racine 3 Hours

Prerequisite: French 301-302. Lectures in French, collateral reading, study of their most distinctive plays. 1970-1971 and alternate years.

402. Voltaire and Rousseau 3 Hours

Prerequisite: French 301-302. Lectures in French, collateral reading, study in class of several of their most representative works. 1970-1971 and alternate years.

404. The Modern Novel 3 Hours

Prerequisite: French 301-302. Lectures in French, study in class of representative works of Stendhal, Balzac, Flaubert, Zola and France. 1969-1970 and alternate years.

407. Romantic Novel 3 Hours

Prerequisite: French 301-302. Lectures in French, outside reading, and study in class of such writers as Lafayette, Marivaux, Le Sage, Prevost, Saint-Pierre, de Stael, Constant, and Hugo. 1969-1970 and alternate years.

German

(101-102). Elementary German 3-2-8 Hours

An audio-lingual approach to basic German speech patterns. Conversation, functional grammar and reading, supplemented by drill in the language laboratory.

Cours
(
Instructio

201-202. Intermediate German

6 Hours

Prerequisite: German (101-102) or equivalent. Continuation of oral-aural practice, integrated with a systematic review of grammar; vocabulary building, and composition. Extensive reading in modern German prose, including some selections representative of modern scientific and technical prose.

301-302. Advanced German

6 Hours

Prerequisite: German 201-202 or equivalent. Advanced readings reflecting various aspects of literary and cultural life in Germany as a basis for written and oral practice designed to increase the student's command of contemporary German.

401-402. Survey of German Literature

6 Hours

Prerequisite: German 301-302 or equivalent. Dieser Kurs veranschaulicht die Entwicklung der deutschen Literatur von ihren Anfängen bis zur Gegenwart. Besondere Betonung liegt bei der Auswahl des Lesestoffes auf den weniger umfangreichen Werken, die in ihrer literarischen Gestalt typische Vertreter der betreffenden Epoche sind.

Latin

(101-102). Elementary Latin

3-2-8 Hours

An introduction to the fundamentals of Latin grammar and the reading of Latin authors.

201-202. Intermediate Latin

6 Hours

Designed for freshmen entering with two units of Latin, or those who have had Latin 101-102. Reading from several Latin writers. Systematic review of principles of syntax.

301-302. Advanced Latin

6 Hours

Prerequisite: Latin 201-202 or three years of high school Latin. Selections from the essays of Cicero, The Aeneid of Virgil, and the Metamorphoses of Ovid.

407-408. Directed Study

6 Hours

Prerequisite: Permission of instructor. The drama, poetry, and philosophy of the Latin writers, with special attention to Plautus and Terence, Livy and Sallust, and Lucretius.

Spanish

(101-102). Elementary Spanish

3-2-8 Hours

Grammar, reading, composition and oral practice.

201-202. Intermediate Spanish

6 Hours

Prerequisite: Spanish (101-102) or two units from high school. Advanced grammar, composition, conversation, and reading of short stories.

203-204. Advanced Grammar and Intermediate Conversational

Spanish

3-2-8 Hours

Prerequisite: Spanish (101-102). Strongly urged for all Spanish majors and those planning to teach in secondary schools. Not to be substituted in any case for 201-202. Laboratory work and instruction via the oral method. More complex grammatical constructions, idiom drill, composition and intonation patterns.

205. Spanish-American Culture and Civilization

3 Hours

A survey of the native Hispanic contributions to the life and literature of the American republics. 1969-1970 and alternate years.

301-302. A Survey Course in Spanish Literature

6 Hours

Reading from all periods of Spanish literature.

401. The Drama of the "Siglo De Oro"

3 Hours

Prerequisite: Spanish 301-302. A study of the best plays of Lope de Vega, Calderon, and other great dramatists of the 17th century. 1969-1970 and alternate years.

402. The Modern Drama

3 Hours

Prerequisite: Spanish 301-302. The best plays of Jacinto Benavente and other leading dramatists of the 19th and 20th centuries. 1970-1971 and alternate years.

421. The Early Novel

3 Hours

Prerequisite: Spanish 301-302. The Spanish novel of the 16th and 17th centuries with particular attention to Cervantes and Don Quixote. First semester 1969-1970 and alternate years.

422. The Modern Novel

3 Hours

Prerequisite: Spanish 301-302. The Spanish novel since the 17th century. Second semester 1970-1971 and alternate years.

Course
C
Instruction

GENERAL EDUCATION

121. Assembly

No Credit

Assembly includes regular chapel programs, Religion in Life series, Willson Lectures, student senate programs, and all-college convocations. Juniors, sophomores, and freshmen are required to attend two-thirds of these assemblies. All students, including seniors, are required to attend the all-college convocations. This does not count toward a major, minimum load or tuition cost, and should not be considered transferable to other schools.

The requirement is satisfied if not less than two-thirds of the required assemblies are attended. If less than the minimum number are attended, no matter what considerations have caused the absences, a grade of "F" will be recorded and an additional hour of credit will have to be earned in a subject approved by the dean.

Lyceums are part of General Education 121, but they do not have an attendance requirement. Attendance on the part of students is entirely voluntary. However, credit toward the two-thirds requirement for other assemblies may be earned through attendance at Lyceums. Each semester.

197, 198. Fine Arts Survey

6 Hours

A course designed to stimulate the esthetic interest of students in art, music, and the theatre; to encourage their intelligent enjoyment and to suggest criteria for appreciation of these fine arts. Yearly.

Interdivisional Seminar

402. Great Issues

3 Hours

Enrollment is limited to senior candidates for degrees. An interdivisional course designed to acquaint the student with some of the important issues which concern the college graduate of today. Two hours of lecture and one hour of group discussion weekly. Lecturers are outstanding Centenary faculty members from all the disciplines and outside speakers of note. The course is required for graduation and must be taken at Centenary College. Each semester.

GEOGRAPHY AND GEOLOGY

Professor Hickcox, *Chairman*

Associate Professor: N.G. Shaw

The Geology Department provides training which will fit the student for employment in the geological departments of oil companies, or for graduate studies. A candidate for the B.S. in geology will take 35 hours in geology, including the following required courses: Geology 101, 102, 111, 112, 151, 201, 202, 203, 204, and 252; Chemistry 101,

102, 111, 112; Mathematics 101 through 106; Physics 101, 102; six semester hours chosen in consultation with the chairman of the Geology Department from Engineering Science 101, 102, 252, and 253; and Philosophy 201. Field camps are encouraged.

Geography

205. Human Geography

3 Hours

The earth's surface from the standpoint of its physical and cultural regions. Emphasis on the distribution of people and on man's changing relations with his habitat.

Geology

101-102. General Geology

3-0-6 Hours

Prerequisite to all other courses in the department. Introductory lecture course covering physical geology the first semester and historical geology the second semester. Yearly.

111-112. General Geology Laboratory

0-6-2 Hours

A study of common rocks and minerals plus topographic maps the first semester, fossils and geologic maps the second semester. Yearly.

151. Regional Geology

3-0-3 Hours

A brief outline of the geology of the United States by the application of basic geologic principles and with an introduction to its geomorphology. First semester 1969-1970 and alternate years.

201, 202. Paleontology

2-3-6 Hours

An introduction to the study of structure, mode of life, distribution, and development of the living forms of past ages. Yearly.

203. Structural Geology

2-3-3 Hours

A study of the mechanics of folding, faulting, and other structural features, their geologic effects, and the solution of structural problems. Second semester 1970-1971 and alternate years.

204. Mineralogy

2-3-3 Hours

A description of the common minerals of the earth's crust, with identification by physio-chemical means. First semester 1969-1970.

233. Problems in Structural Geology

1-2-2 Hours

Prerequisite: Geology 203. The application and solution of graphic problems in structural geology as related to studies in petroleum geology. 1969-1970.

251. Economic Geology

3-0-3 Hours

The genesis of ores, the structure and stratigraphy of mineral-producing ores, and the economic aspect of mineral deposits. 1970-1971 and alternate years.

252. Elementary Petrology

2-3-3 Hours

The description and identification of the common rocks in the crust of the earth, and a study of the theories of origin for the different types of rocks. 1970-1971 and alternate years.

301. Geology of Petroleum

3-0-3 Hours

A course devoted to the study of the origin, migration, and accumulation of petroleum and of the oil and gas fields of the U.S. in general. 1970-1971 and alternate years.

302. Geology of The Ark-La-Tex Oil and Gas Fields

3-0-3 Hours

A detailed study of the various oil and gas fields of the Ark-La-Tex. 1970-1971 and alternate years.

303. Well Logging

3-0-3 Hours

A study of the various methods of well-logging and their application to the general field of geology. 1969-1970.

401. Sedimentation

3-0-3 Hours

A discussion and study of the origin and environments of sediments and their lithification. Yearly.

402. Principles of Stratigraphy

3-0-3 Hours

The principles underlying the study of the stratigraphic units of the earth's crust throughout geologic time. Yearly.

405. Introduction to Geophysical Prospecting

3-0-3 Hours

Prerequisite: Mathematics 101, 105, or equivalent; Physics 101-102. An introduction to the various methods of geophysical prospecting for petroleum products. Includes the study of magnetic, gravitational, seismic, electrical, and other methods.

421-422. Introduction to Micropaleontology

1-6-6 Hours

A study of identification of some of the important microfossils of the geologic column and methods of applying these data. 1970-1971 and alternate years.

440. Geology Seminar

1-0-1 Hours

Discussion groups on general phases of the whole field of geology and upon the history of science as a whole and geology in particular.

HEALTH AND PHYSICAL EDUCATION

Assistant Professor Sigler, *Acting Chairman*

Assistant Professors: Little, Swank

Instructors: Edwards, LeBlanc, Schulman, Wallace

The Department of Health and Physical Education offers a program of activity and sports for all able-bodied students which includes conditioning exercises, individual and team sports, gymnastics, apparatus

work, rhythmic activities, and swimming; a special program for handicapped students which is adapted to their particular needs; an intramural program which is intended to promote competitive experience in sports; and professional preparation of students for careers as teachers of health and physical education, as athletic coaches, and as workers in church, community and industrial recreation.

Candidates for all degrees at Centenary must satisfactorily complete four semester hours of health and physical education, these hours ordinarily to be taken from the courses numbered 101 through 216. These courses are prerequisite for all others in the department.

Major Requirements

Male candidates for the B.S. degree must meet all teacher certification requirements, all core requirements, and must also complete 38 semester hours of health and physical education courses, including 221, 222, 223, 225, 227, 321, 324, 330, 332 or 334, 333 or 335, 338 or 340, 342, 423, 424, 428 or 430. They must also complete 12 hours of Biology 101-102, 111-112, and 217.

Women candidates for the B.S. degree must satisfactorily complete all core requirements; they must meet certification requirements; and they must complete 38 hours in the department, including 221, 222, 223, 225, 321, 324, 330, 332, 334, 341, 342, 423, 424, 428 or 430. In addition, they must complete Biology 101-102, 111-112, and 217.

101, 102. Freshman Activity for Men 2 Hours

115, 116. Freshman Activity for Women 2 Hours

201, 202. Sophomore Coeducational Activity 2 Hours

Archery and riflery, beginning tennis and badminton, bowling, fencing, folk and square dance, golf, lifesaving, modern dance, swimming.

215, 216. Same as above 2 Hours

221. First Aid 2 Hours

Designed to develop competence in rendering immediate and temporary aid to a victim of an accident or sudden illness. Theoretical and practical approach. Covers both standard, advanced and instructor courses of the American National Red Cross with certificates granted for satisfactory work. Meets three hours each week. Yearly.

222. Techniques of Gymnastics 2 Hours

Instruction in the technique of teaching basic skills in men's and women's gymnastics. Yearly.

223. History and Principles of Physical Education 3 Hours

Prerequisite: Sophomore standing. An introduction course designed to acquaint students with the biological, psychological and sociological foundations of physical education, and to provide them with historical reference sufficient for intelligent interpretation and evaluation of current practices in the field. Yearly.

225. Intramural Sports Techniques 3 Hours

A study of the methods commonly used in organizing and administering a program of intramural sports in public schools. Emphasis is given to classification for competition, rules and regulations, league play, statistics, arrangements, and officiating. Yearly.

227. Techniques of Athletic Conditioning and Training 3 Hours

Prerequisite: Sophomore standing. A study of the relationship between physical condition and successful participation in sports activities. Emphasis is given to the selection and administration of exercises, with due regard for the safety and welfare of those concerned, and to the prevention, recognition, care and treatment of athletic injuries. Yearly.

239. Materials and Methods of Physical Education for the Elementary Grades 3 Hours

Basic materials in games, stunts, self-testing activities, calisthenics and rhythms. Emphasis is placed upon procedures for presentation of activities in the elementary school. Each semester.

321. Personal and Community Health 3 Hours

A study of factors influencing and determining personal health, and an introduction to methods used in preventing disease in individuals and in communities. Yearly.

324. Kinesiology 3 Hours

Prerequisite: Biology 217. A study of the factors influencing bodily movement. Consideration is given to the mechanical and physiological action of joints and muscles. Yearly.

330. Tests and Measurements 3 Hours

A study of tests designed to measure health, physical fitness, strength, motor ability, game skills, and use of the results of the tests. Yearly.

332. Swimming Techniques 2 Hours

A course designed to develop basic skills in swimming as well as the ability to aid others in distress in water. Senior life saving and water safety instructor certificates by the American National Red Cross may be obtained. Yearly.

333. Techniques of Coaching Basketball 2 Hours

A study of the basic offensive and defensive patterns, their strengths and weaknesses. Program organization and administration are included. Alternate years.

334. Folk and Square Dance Techniques 2 Hours

Theory and practice of folk and square dance. A bibliography of materials and

music given. Instruction in teaching and calling dances. Yearly.

335. Techniques of Coaching Football

2 Hours

A study of the basic offensive and defensive formations, their strengths and weaknesses. Program organization is included as well as instruction in fundamentals. Alternate years.

338. Techniques of Coaching Baseball

2 Hours

A study of the fundamentals of baseball. Strategies of all phases of the game are included. Alternate years.

340. Techniques of Coaching Track and Field

2 Hours

A study of the fundamentals of track and field events, plus practical experience in meet administration. Alternate years.

341. Theory and Practice of Team Sports for Women

3 Hours

Analysis of techniques, progression in presentation, practice, lead-up activities, and knowledge of official rules. Yearly.

342. Theory and Practice of Individual Sports

3 Hours

A theoretical and practical study of skills adapted for use in secondary schools. Yearly.

423. Administration of Health and Physical Education

3 Hours

A study of principles underlying the organization and administration of programs of health and physical education in modern schools. Yearly.

424. School Health

3 Hours

A study of health problems of school children; detection and correction of defects; prevention and control of communicable diseases. Environmental health factors are considered. Yearly.

428. Methods in Teaching Physical Education

3 Hours

Prerequisite: Junior standing. A course designed for prospective high school teachers of health and physical education. 1970-1971 and alternate years.

430. Physiology of Exercise

3 Hours

Prerequisite: Biology 217. A study of the reactions of the body functions to exercise. The understanding of the human organism during muscular activity in terms of communication, energy production and transportation. 1969-1970 and alternate years.

HISTORY AND GOVERNMENT

Professor Vogel, *Chairman*

Professors: Davidson, W.M.Lowrey, Overdyke

Associate Professor: Hancock

Assistant Professor: Rainey

Instructor: Loyless

The courses offered by the Department of History and Government are designed to make an essential contribution to a liberal arts education by providing the general student with a comprehensive and integrated knowledge of man's history; to provide the training necessary for more advanced study in history and political science; and to provide the practical knowledge of historical and political developments, which is an essential part of the preparation of those students expecting to enter the professions of law, government service, politics, and business.

Major Requirements

History

A candidate for the B.A. in history must complete 24 semester hours in history, plus History 441, six hours in economics, six hours in government, and six hours in a related subject approved by the major adviser. Not less than 30 hours of work in courses numbered 300 or above must be presented for graduation, of which not less than 12 must be in history. Students majoring in history are expected to offer either French or German in fulfillment of the foreign language requirement unless otherwise specified by the major adviser.

101-102. Survey of European History

6 Hours

A rapid survey for freshman students who wish to familiarize themselves with the background of present-day Europe.

201-202. History of England and Great Britain

6 Hours

A general survey of the history of England and the British Empire to the present time.

205-206. History of the United States

6 Hours

A comprehensive survey of the major developments in American History from the colonial period to the present.

207. History of Louisiana

3 Hours

A rapid survey of French and Spanish colonization; development of the state politically, socially, and economically to the present time.

301-302. History of the Christian Church

6 Hours

Same as Religion 301-302.

303-304. History of Russia**6 Hours**

Offered in recognition of the emergence of Russia as a world power, and is designed to acquaint the student with the essential facts in Russian history. First semester, the birth of the Russian state (860) to the Russian Revolution of 1917; second semester, a detailed study of Russia under Soviet rule from the Revolution of 1917 to the present. 1970-1971.

305. Greek History**3 Hours**

A brief study of the Greek people from the earliest age to the Roman Conquest. 1970-1971.

306. Roman History**3 Hours**

A study of the political, cultural and social history of Rome. 1970-1971.

309-310. History of American Foreign Relations**6 Hours**

Same as Government 309-310.

312. History of the Ante-Bellum South**3 Hours**

Social and economic characteristics of the deep South, with emphasis on the plantation system. Field trips made to adjacent areas.

313-314. Contemporary Europe**6 Hours**

A survey of Europe since 1914, considering two World Wars, events leading to World War II, and problems created by the Atomic Age.

317-318. Renaissance and Reformation**6 Hours**

A study of the important social, political, economic, and cultural developments in European civilization during the 14th and 15th centuries. The Reformation section covers the 16th century and the first half of the 17th century. (Same as Religion 317-318.)

321-322. American Intellectual History**6 Hours**

The evolution of American intellectual and cultural life from colonial times to the present, as expressed in political and economic thought, theology, philosophy, and literature, with reference to the interaction between ideas and social structures.

341-342. History of Latin America**6 Hours**

First semester, the development of Spanish and Portuguese America to the wars of independence; second semester, the development of the independent states in the 19th and 20th centuries.

441. Seminar in History**2 Hours**

Prerequisite: History or government major and approval of instructor. A study of various schools of historical scholarship and an introduction to the elements of research.

Government

A candidate for the B.A. in government must complete 24 semester hours in government plus History 441 and six other hours in history, six hours in economics, and six hours in a related subject approved by

the major adviser. Not less than 30 hours of work in courses numbered 300 or above must be presented for graduation, of which not less than 12 must be in government. Students majoring in government are expected to offer either French or German in fulfillment of the foreign language requirement unless otherwise specified by the major adviser.

201. American Government 3 Hours

Constitutional principles, agencies of the federal government and their relationships to the states, and individual civil rights, citizenship, political possessions.

205. Political Theory 3 Hours

An introductory study of the writings of a select group of political thinkers from Plato to the present. 1969-1970.

207. International Relations 3 Hours

A survey of current world problems, with emphasis upon world organizations, power politics, international law, geopolitics, and peace organizations.

210. State and Municipal Government 3 Hours

A survey of problems, functions, and weaknesses in state and municipal governments with emphasis upon political machines, types of municipal government, local planning, and study of government in Louisiana.

303. Constitutional History of the United States 3 Hours

Prerequisite: Junior standing. A study of the development of Constitutional principles and practices in American History.

304. Leading Cases in Constitutional History 3 Hours

Prerequisite: Junior standing. Study and analysis of the most important decisions of the United States Supreme Court.

305. The Government of Europe 3 Hours

Prerequisite: Junior standing. Comparative study of cabinet systems of government with emphasis on the development of England, and the theories and functioning of political communism, fascism and nazism in Europe, including post-war developments. 1970-1971.

306. Comparative Foreign Policies 3 Hours

An introductory study of the traditional aims, conduct, and formation of foreign policies of the major powers. 1970-1971.

307. The European Community 3 Hours

A study of Western Europe's efforts to achieve cooperation and coexistence, with emphasis on the common market and related regional organizations. 1970-1971.

309-310. History of American Foreign Relations 6 Hours

A diplomatic history of the American people, with emphasis on the influence of public opinion in determining foreign policy. (Same as History 309-310.)

311. Political Parties

3 Hours

A survey of the history, functions, and weaknesses of the political party system in the United States.

313. Urban and Rural Government

3 Hours

A survey of the organization, structure, functions, and problems of local governments in the United States and their role in the constitutional system with an analysis of their prospects for the future.

324. International Law

3 Hours

A study of the development and foundations of international law; the laws of war, peace, and neutrality; and a study of the laws of treaties with emphasis on law enforcement, state responsibilities, diplomatic immunities, and war crimes.

421. Comparative Economic Systems

3 Hours

Same as Economics 421.

M A T H E M A T I C S

Professor Carlton, *Chairman*

Associate Professors: Self, Speairs

Assistant Professors: Danvers, Greene, Simmons

Instructor: Treese

Lecturers: Humble, Whitehurst

The Department of Mathematics aims to contribute to the student's liberal education by showing the role which mathematics has played and is playing in the development of civilization, and by giving him the opportunity to appreciate mathematics for its own esthetic qualities.

It aims particularly to give fundamental training to students in the natural sciences and engineering, and also to those in economics and commerce. The mathematics program is planned so that a student majoring in the field may choose any one of a number of directions in which to continue after graduation, including the teaching profession, work in industry, the computer mathematics field, further training toward actuarial work, or the combination of mathematics with other scientific training, as well as graduate work in pure mathematics.

High school mathematics through trigonometry is the suggested background for an incoming freshman, with Mathematics 101 offered only for those students not able to obtain this background before entering college.

Major Requirements

Students may receive either a B.A. or B.S. degree with a major in mathematics. For either degree, a minimum of 27 hours of mathematics in courses numbered 201 or higher is required. Nine of the 27 hours must be in courses numbered 401 or higher. Of the total credit required for the degree, at least 30 semester hours of courses numbered 300 or higher are required. At least 12 of these 30 hours must be taken outside the Department of Mathematics.

100. Mathematics For Teachers I

3 Hours

(Open for credit to elementary education majors only. Does not satisfy core requirements in mathematics.) Logic, sets, the set of counting numbers. Numeration systems. The rational numbers, decimals. The real number system. Each semester.

101. Algebra and Plane Trigonometry

3 Hours

Introduction to set theory. Logical development of the real number system. The notions of variable and function (algebraic, trigonometric, exponential,

logarithmic) and their geometric representation. Inverse functions. Equations and identities. Each semester.

105. Introduction To Finite Mathematics 3 Hours

(Open only to non-science majors.) Statement logic. Elementary theory of sets. Counting problems and probability theory. Vectors and matrices. Applications. Each semester.

106. Analytic Geometry and Calculus I 3 Hours

Coordinate systems, straight lines, functions and graphs. Limits, derivatives of algebraic functions, applications of the derivative. Each semester.

115. Mathematics For Teachers II 3 Hours

Prerequisite: Mathematics 100 or consent of instructor. (Open for credit to elementary education majors only.) Topics from number theory, geometry, algebra, and the history of mathematics. Second semester yearly.

123. Computer Systems 3 Hours

Introduction to computer languages, methods and operations, with particular emphasis on Fortran IV and its application to a variety of problems using the College computer.

201. Analytic Geometry and Calculus II 3 Hours

Prerequisite: Mathematics 106. The definite and indefinite integral. Derivatives and integrals of exponential, logarithmic, hyperbolic, trigonometric, and inverse trigonometric functions. Techniques in integration, integration by parts. Each semester.

202. Analytic Geometry and Calculus III 3 Hours

Prerequisite: Mathematics 201. Further applications of the calculus. Basic properties of continuous and differentiable functions. Infinite series. Plane curves and polar coordinates. Each semester.

203. Linear Algebra 3 Hours

Prerequisite: Mathematics 106. Systems of linear equations, vector spaces, linear dependence, bases, dimension, linear mappings, matrices, determinants, applications. Yearly.

303. Analytic Geometry and Calculus IV 3 Hours

Prerequisite: Mathematics 202. Three-dimensional analytic geometry. Introduction to vector analysis. Differential calculus of several variables. Multiple integration. Line and surface integrals. Each semester.

304. Foundations of Geometry 3 Hours

Prerequisite: Consent of instructor. Advanced Euclidean geometry, with emphasis on transformation theory. Topics from ordered geometry, affine geometry, absolute geometry, non-Euclidean geometry, and n-dimensional geometry. Yearly.

305. Mathematical Statistics 3 Hours

Probability, sample spaces. Mathematical models, testing hypotheses. Empirical and theoretical frequency functions. Correlation and regression. Testing goodness of fit. Yearly.

Cours
(
Instructio

ntenary
llege

306. Modern Algebra I

3 Hours

Prerequisite: Mathematics 201. Basic properties of groups, rings, fields and morphisms. Yearly.

307. Differential Equations

3 Hours

Prerequisite: Mathematics 303. Common types of ordinary differential equations, especially of the first and second order. Problems which lead to differential equations and the standard methods of their solutions. First semester yearly.

309-310. Seminar For Secondary Teachers of Mathematics

1-3 Hours

Topics from Euclidean geometry, non-Euclidean geometry, analytic geometry. Topics in algebra, sets, matrices. Yearly.

403. Topology

3 Hours

Prerequisite: Mathematics 303. A survey of fundamental properties of topological spaces with particular emphasis on the real number system. Connectedness, compactness, continuous mapping, homeomorphism, metric spaces. First semester 1969-1970 and alternate years.

404. Vector Analysis

3 Hours

Prerequisite: Mathematics 303. A basic course in vectors. Topics include vector and scalar products, vector equations, and vector calculus. Applications from differential geometry and physics. Curvature, torsion, and Gaussian curvature. Second semester yearly.

405. Numerical Analysis**3 Hours**

Prerequisite: Mathematics 203, 307. Numerical differentiation and integration. Solutions of numerical equations. Numerical solutions of ordinary and partial differential equations. Various methods of interpolation. First semester yearly.

407. Introductory Real Variable Theory I**3 Hours**

Prerequisite: Mathematics 303. Real and complex systems, sets, metric spaces, continuity and differentiation. First semester 1970-1971 and alternate years.

408. Introductory Real Variable Theory II**3 Hours**

Prerequisite: Mathematics 407. Riemann-Stieltjes integral, sequences and series of numbers and functions. Second semester 1969 and alternate years.

410. Independent Study in Mathematics**1-3 Hours**

Open to advanced students in mathematics with the consent of the instructor. One hour conference per week. Library and research work pertinent to the area of study selected. A written thesis is required.

SCHOOL OF MUSIC

Associate Professor Carp, *Director*

Associate Professors: Causey, Harlan, Voran

Assistant Professors: Cameron, Dean, Perkins

Adjunct Professor: Teague

Lecturers: Bond, Mrs. Carp, Fisher, Gruppe, Hobbs, Jennings, Lang, Lorrin, Noonan, Shenaut, Simpson, Upton, Wideman

Centenary College offers the B.A. degree with a major in applied music, and the Bachelor of Music degree with majors in applied music, music education, and composition. The Centenary School of Music is a member of the National Association of Schools of Music; therefore, requirements for entrance and for graduation are based upon the published regulations of that association.

Requirements for admission for the degree of Bachelor of Music are the same as for admission to candidacy for other degrees. In addition, all prospective music majors should be familiar with the visual and aural aspects of the fundamentals of music theory. A rudimentary knowledge of piano playing is strongly recommended.

Entering students are given auditions and placement tests in music theory and piano (for non-keyboard majors). For unconditional acceptance as a music major, a student should be able to perform an entrance

9
Course
O
Instruction

audition in his major applied area, meeting standards which are set by the School of Music. All entrance auditions and placement tests in theory and piano (for non-keyboard majors) are administered during the freshman orientation period each fall, and before registration for the second semester. Entering freshmen should consult early with the Director of the School of Music concerning qualifications, auditions and tests.

Credit in applied music for students transferring from other schools will be determined by an audition before the music faculty during the orientation period, and by progress made during the first semester of study at Centenary. Transfer students should also expect to take examinations in music theory and music history to determine whether equivalent standards have been met. Until auditions and examinations have been completed and evaluated, music credit for any transfer student will be tentative.

The course in public school music leading to a degree of Bachelor of Music in music education is designed to meet the state requirements for teacher certification in the public school systems of Louisiana. All students planning to certify as teachers must by the end of the sophomore year petition the selective admissions committee of the Teacher Education Advisory Council for acceptance into the Department of Education. Interested students should consult with the Director of the School of Music for details of this particular curriculum.

Requirements for all of the degrees offered in music are quite detailed and specific. Interested students and prospective majors should consult early with the Director of the School of Music for suggested course plans fitting specific majors.

001-002. Recital Attendance

No Credit

Theory of Music

111-112. Music Theory

4 Hours

A study of the materials of music and their organization through part writing and analysis.

113-114. Keyboard Harmony

2 Hours

Keyboard application of music theory. Must be taken with Music 111-112.

117-118. Ear Training **2 Hours**
Scales, intervals, rhythm, meter, and their application in sight singing and dictation. Must be taken with Music 111-112.

211-212. Music Theory **4 Hours**
Prerequisite: Music 111-112. Continuation of Music 111-112.

213-214. Keyboard Harmony **2 Hours**
Prerequisites: Music 111-112 and Music 113-114. Continuation of Music 113-114. Must be taken with Music 211-212.

215-216. Analysis of Musical Forms **6 Hours**
Prerequisite: Music 111-112. Elements of musical form and harmonic analysis of standard works.

217-218. Ear Training **2 Hours**
Prerequisites: Music 117-118 and Music 111-112. Continuation of Music 117-118. Must be taken with Music 211-212.

309-310. Creative Writing **2 Hours**
Prerequisite: Music 215-216. Basic techniques of composition. Writing in smaller forms. 1970-1971 and alternate years.

311-312. Counterpoint **4 Hours**
Prerequisite: Music 211-212. First semester 18th century. Second semester 16th century.

315-316. Accompanying and Improvisation **4 Hours**
The art of accompanying on the organ and the adapting of other scores to the organ. Develops fluency in improvisation at the organ by using basic keyboard skills, basic forms and modulations. 1969-70 and alternate years.

411-412. Orchestration **4 Hours**
Scoring and analysis of scores for orchestra first semester and band second semester.

Diction

Courses designed specifically for singers. Required of voice majors. International phonetic alphabet is used.

107. Italian diction **1 Hour**

108. German diction **1 Hour**

209. French diction **1 Hour**

210. English diction **1 Hour**

Public School Music

121. Music Education **3 Hours**
Theory of music and elementary music teaching methods for the general classroom teacher. For non-music majors.

321. Music Education **1 Hour**
Prerequisite: Acceptance into Department of Education by admissions committee.
Methods of teaching music in the elementary grades.

325-326. Conducting. Band and Orchestra **2 Hours**

327-328. Conducting. Choral **2 Hours**

421. Elementary Student Teaching **2 Hours**
Prerequisite: Music 321.

423. High School Student Teaching **2 Hours**
Prerequisite: Music 321.

Pedagogy

431-432. Organ Teaching Methods **4 Hours**
1970-1971 and alternate years.

433-434. Piano Teaching Methods **4 Hours**
1970-1971 and alternate years.

435-436. Voice Teaching Methods **4 Hours**

437-438. Band Methods **4 Hours**
Prerequisite: Acceptance into Department of Education by admissions committee.
Training, management and study of the literature of the school band.

439-440. Orchestra Methods **4 Hours**
Prerequisite: Acceptance into Department of Education by admissions committee.
Training, management and study of the literature of the school orchestra.

447-448. Choral Teaching Methods **4 Hours**
Prerequisite: Acceptance into Department of Education by admissions committee.
Methods, materials, and techniques for music education majors preparing to teach school vocal music.

451-452. String Teaching Methods **4 Hours**
1970-1971 and alternate years.

453-454. Wind Teaching Methods **4 Hours**
1970-1971 and alternate years.

Music History and Literature

141-142. Introduction to History and Literature of Music **4 Hours**
For music majors or divisional humanities majors.

143-144. Music Appreciation **2 Hours**
Cultural course for the general college student. For non-music majors.

301-302. Music History and Literature **6 Hours**
Prerequisite: Music 141-142. A survey of the development of music from Middle Ages to present day.

442. Twentieth Century Music **3 Hours**
 Prerequisite: Music 301-302. A study of styles and techniques from 1900 to the present.

444. Church Music **3 Hours**
 Prerequisite: Music 301-302. Historical survey of religious music.

Repertoire and Interpretation

461-462. Piano Literature **4 Hours**
 1969-70 and alternate years.

463-464. Organ Literature **4 Hours**
 1970-1971 and alternate years.

465-466. Song Literature **4 Hours**

467-468. String Literature **4 Hours**
 1970-1971 and alternate years.

469-470. Wind Literature **4 Hours**
 1970-1971 and alternate years.

Applied Music—Class Instruction

Private instruction may be substituted for class instruction.

129-130. Piano Class **4 Hours**
 For non-keyboard music majors working to pass the piano proficiency exam, and for electives. Two class hours plus six hours practice weekly.

229-230. Piano Class **4 Hours**
 Continuation of Music 129-130. Piano proficiency exam is the final exam for Music 230. Two class hours plus six hours practice weekly.

329-330. Piano Class **4 Hours**
 Continuation of Music 229-230 with major emphasis on accompanying and sight reading. Practical application of studio accompanying.

331. Percussion Class **2 Hours**
 Spring 1970 and every 4th semester.

333. String Class **2 Hours**
 Spring 1971 and every 4th semester.

335. Brass Class **2 Hours**
 Fall 1970 and every 4th semester.

337. Woodwind Class **2 Hours**
 Fall 1969 and every 4th semester.

339-340. Voice Class **2 Hours**
 Fundamentals of voice production. For non-voice majors, and for electives.

429-430. Piano Class **4 Hours**
 Continuation of Music 329-330 with major emphasis on accompanying and sight reading. Practical application of studio accompanying.

100
 Course
 O
 Instruction

Applied Music—Private Instruction

Piano, voice, organ, orchestra instruments, percussion and private composition. Private instruction for electives, and for music majors desiring private rather than class instruction in their minor applied area.

171. Elective Private Applied 1 Hour

Half hour lesson and five hours practice weekly.

172. Elective Private Applied 2 Hours

One hour lesson and 10 hours practice weekly.

173. Elective Private Applied 3 Hours

One hour lesson and 15 hours practice weekly.

181-182. Major Private Applied 6 Hours

Freshman year for all music majors. One hour private lesson, seminar, and 15 hours practice weekly.

275-276. Major Private Applied 4 Hours

Sophomore year for music education and B.A. music majors. One hour private lesson, seminar, and 10 hours practice weekly.

281-282. Major Private Applied 6 Hours

Sophomore year for Bachelor of Music in piano, organ, voice, orchestral instrument and composition majors. One hour private lesson, seminar, and 15 hours practice weekly.

375-376. Major Private Applied 4 Hours

Junior year for music education and B.A. music majors. One hour private lesson, seminar, and 10 hours practice weekly.

381-382. Major Private Applied 6 Hours

Junior year for Bachelor of Music piano, organ, voice, orchestral instrument, and composition majors. Junior recital—30 minutes. One hour private lesson, seminar, and 15 hours practice weekly.

475-476. Major Private Applied 4 Hours

Senior year for music education and B.A. music majors. Senior recital—30 minutes. One hour private lesson, seminar, and 10 hours practice weekly.

481-482. Major Private Applied 6 Hours

Senior year for Bachelor of Music piano, organ, voice, orchestral instrument, and composition majors. Senior recital—one hour. One hour private lesson, seminar, and 15 hours practice weekly.

Ensemble

151. Band 1 Hour

153. Choir 1 Hour

155. Orchestra 1 Hour

157. Chamber Music 1 Hour

159. Opera Workshop 1 Hour

161. Symphony Chorale 1 Hour

163. Accompanying 1 Hour

PHILOSOPHY

Associate Professor Cox, *Chairman*

Professor: Davidson

The courses in philosophy are designed to acquaint the student with systems of thought about life and reality, and to help him understand the function of intelligence in life. To this end the department provides: a major in preparation for professional or graduate work; courses in problem areas contributing to other academic disciplines and the general liberal arts program of the College. General course prerequisites: 200 level courses for sophomores or above; 300 level courses for juniors or above; permission of instructor where required. Exceptions may be made by instructor for exceptional students. Philosophy 201 is not considered a necessary prerequisite for other courses.

Major Requirements

A philosophy major is required to take 24 semester hours in philosophy, including 202, 203, 301 and 302; at least one three-hour directed study course (401-402). The approval of the course of study by a departmental adviser is also necessary.

10
Course
O
Instruction

201. Introductory Problems in Philosophy 3 Hours

An introduction to philosophical method through problems selected from such areas as theory of knowledge and reality, art, ethics, religion, and science. Yearly.

202. Ethics 3 Hours

An introduction to the basic concepts and problems of ethics. Ancient and modern theories considered. Yearly.

203. Logic 3 Hours

An introduction to the fundamental principles in deductive and inductive reasoning, and in symbolic logic. Yearly.

205. Esthetics 3 Hours

A philosophical study of the creative impulse, the art object, and the esthetic experience. Yearly.

206. Philosophy of Science 3 Hours

An investigation of the basic problems and presuppositions of scientific method and concept formation. Attention given to differences involved in the physical, biological, and behavioral sciences. Yearly.

301. History of Ancient And Medieval Philosophy 3 Hours

An examination of the major philosophical systems from the early Greeks to the 17th century. Yearly.

302. History of Modern Philosophy **3 Hours**
An examination of the major philosophical systems from the 17th century to the present. Yearly.

303. Philosophy of Religion **3 Hours**
A study of the problems of religious language and truth, the existence of God, and related religious concepts. Yearly.

304. Contemporary Philosophy **3 Hours**
An examination of the major figures and types of 20th century philosophy. Yearly.

306. Metaphysics **3 Hours**
A study of the basic categories of experience and ultimate reality. Prerequisite: Permission of instructor. Alternate years.

307. Philosophy of Eastern Religions **3 Hours**
An historical study of the fundamental philosophical concepts of near and far eastern religions and ethical systems. Alternate years. (Same as Religion 307.)

401, 402. Directed Study In Philosophy **2-6 Hours**
Prerequisite: Permission of instructor. Yearly.

PHYSICS AND ENGINEERING SCIENCE

Associate Professor Galloway, *Chairman*

Professor: Parker

Associate Professor: Walker

Instructors: Harris, Williams

Physics

The physics curriculum is made up of introductory courses designed to familiarize the nonscience major with the fundamental concepts of physics; courses designed to give the science major a firm grasp of the principles of classical and modern physics; and advanced courses designed to prepare the physics major with the necessary background in experimental and theoretical physics to meet the demands of graduate study and research.

The prospective freshman who plans to major in physics should take Mathematics 101 in the summer session prior to the fall semester of his freshman year unless his background includes high school mathematics through trigonometry.

Major Requirements

The B.S. degree with a major in physics requires Physics 202, 204, 212, 302, 312, 321, 322, 412 and 422; Engineering Science 102 or 251; Chemistry 102 and 112; and Mathematics 307. Mathematics 404 and 405 are advised. Physics 331 and 332 may be substituted for Physics 421-422 for those students who plan to pursue advanced study in astronomy and astrophysics.

001-002. Physics Problems I-II

0-1-0 Hours

Prerequisite: Enrollment in any 100 or 200 level physics course. Additional practice in setting up and solving problems within the scope of Physics 101-102. Yearly.

003-004. Physics Problems III-IV

0-1-0 Hours

Prerequisite: Enrollment in any 200 level physics course. A continuation of Physics 001-002. Problems are within the scope of Physics 203-204. Yearly.

101, 102. Physics I-II

3-0-6 Hours

Prerequisite: Mathematics 106 or enrollment therein. The fundamental principles and classic experiments of mechanics, thermophysics, light and optics, including conditions of equilibrium, translation and rotation of rigid bodies, work, energy, dynamics of liquids and gases, wave motion and sound, kinetic theory, first and second laws of thermodynamics, geometric and physical optics. Physics 102 may be taken prior to Physics 101. The course text is **Physics** by Halliday and Resnick. Yearly.

111-112. General Astronomy

3-0-6 Hours

A study of the earth as a body in space, the other planets, the moon and other satellites, comets, meteorites, the solar system and its motion and analysis of light, the sun, the stars, star clusters, gaseous nebulae, the Milky Way, external galaxies, the structure of the universe. The course text is **Principles of Astronomy** by Wyatt. Yearly.

113-114. General Astronomy Laboratory

0-3-2 Hours

A laboratory course intended for students enrolled in Physics 111-112 who wish to develop experimental skills for collecting and evaluating astronomical data. Planetarium and observatory facilities available in the Shreveport area are used. The course text is Shaw and Boothroyd's **Manual of Astronomy**. Yearly.

121-122. Introductory Physics

3-3-8 Hours

Prerequisite: Mathematics 101 or its equivalent. The fundamental concepts of statics and dynamics of rigid bodies, liquids, gases, wave motion, sound, light, electricity and magnetism. The fundamental principles are illustrated by the solution of simple problems and illustrative experimental work. This course is not open for credit to any student who is majoring in one of the sciences. The course text is Smith and Cooper's **Elements of Physics**. Offered on demand.

201-202. Sophomore Physics Laboratory**0-3-2 Hours**

Prerequisite: Physics 101, 102 and either Mathematics 201 or enrollment therein. An introduction to experimental techniques for direct and indirect measurements in the physics laboratory. Experiments illustrate the fundamental principles of mechanics, thermophysics, sound, electricity, magnetism, light, optics and elementary modern physics. Error propagation computations are required with each experiment. The course text is **Physics Laboratory Manual** by Wall and Levine. Yearly.

203-204. Physics III-IV**3-0-6 Hours**

Prerequisite: Physics 101 and Mathematics 201. Fundamental principles and classic experiments of electromagnetism and modern physics including fields, potentials, dielectric materials, D.C. and A.C. circuits, Maxwell's equations, introductory quantum mechanics and relativity. Physics 204 may not be taken prior to Physics 203. The text for Physics 203 is the same text used for Physics 101-102. The text for Physics 204 is **Elementary Modern Physics** by Weidner and Sells. Yearly.

212. Electronics for Scientists**2-6-4 Hours**

Prerequisite: Consent of instructor and Physics 203 or its equivalent. Principles and applications of vacuum tube and solid state electronics with emphasis on the electronic circuitry of research laboratory instrumentation. Electrical measurements, power supplies, amplifier circuits, oscillators, servomechanisms and high speed switching and timing circuits. The course text is Malmstadt, Enke and Toren's **Electronics for Scientists**. Yearly.

301-302. Junior Physics Laboratory**0-3-2 Hours**

Prerequisite: Physics 202 and either Physics 212 or enrollment therein. Advanced experimental techniques in the physics laboratory. Students are instructed in the use of machine shop equipment, electronic techniques and precision instrumentation in planning and executing advanced experiments. Experiments are within the scope of mechanics, thermophysics, electricity, magnetism, light, optics and modern physics. The course text is **The Taylor Manual of Advanced Undergraduate Experiments in Physics**. Yearly.

311-312. Mechanics**3-0-6 Hours**

Prerequisite: Physics 101 and either Mathematics 307 or enrollment therein. An advanced study of the principles of statics and dynamics of matter. Topics include free and constrained motion of particles, rigid bodies, and systems of particles, formal methods using equations of Lagrange and Hamilton, and vibrating systems. The course text is **Introduction to Theoretical Mechanics** by Becker. Yearly.

321. Heat and Thermodynamics**3-0-3 Hours**

Prerequisite: Physics 102 and either Mathematics 303 or enrollment therein. A study of thermodynamic systems, first, second and third laws of thermodynamics, entropy, enthalpy, Helmholtz and Gibbs functions and elements of statistical mechanics. The course text is Reif's **Statistical and Thermal Physics**. Yearly.

322. Light and Optics**3-0-3 Hours**

Prerequisite: Physics 102 and Mathematics 303. A general treatment of the principles of geometric and physical optics including optical instruments, interference, diffraction, absorption, scattering, dispersion and polarization. The course text is **Fundamentals of Optics**, by Jenkins and White. Yearly.

331. Astrophysics: The Solar System**3-0-3 Hours**

Prerequisites: Mathematics 201 and either Physics 203 or consent of instructor. Principles of solar system physics including general features and motions of the system, celestial mechanics, observational instruments and techniques, solar structure and atmosphere, the interplanetary medium; planetary interiors, surfaces, and atmospheres; structure and orbits of satellites, meteors, and comets; theories of solar system origin and evolution. Offered on demand.

332. Astrophysics: The Stars**3-0-3 Hours**

Prerequisites: Mathematics 201 and either Physics 203 or consent of instructor. Physics of the stars including determination of stellar distances, luminosities, colors, temperatures, radii, and masses; stellar spectra and spectral classification; the H-R diagram; stellar interiors and atmospheres; stellar evolution; variable and unusual stars. Offered on demand.

401-402. Senior Physics Laboratory**0-3-2 Hours**

Prerequisite: Physics 302. A continuation of Physics 302 with emphasis on experiments in the field of modern physics. Experiments include NMR, EPR, microwaves, X-ray diffraction, crystallography, scintillation and solid state nuclear detection, fast pulse spectrometry and use of the digital computer for data reduction. The course text is **Experiments in Modern Physics** by Melissinos. Yearly.

411-412. Electricity and Magnetism**3-0-6 Hours**

Prerequisite: Physics 203 and either Mathematics 307 or enrollment therein. An advanced study of electric and magnetic fields and potentials in free space and in matter, electric and magnetic energies, transient and steady state currents, plasma physics, wave equations and elementary electrodynamics. The course text is Reitz and Milford's **Foundations of Electromagnetic Theory**. Yearly.

421-422. Modern Physics**3-0-6 Hours**

Prerequisite: Physics 204 and Mathematics 307. An in depth treatment of the principles of modern physics illustrating the operation of these principles in the observed behavior of matter. Topics include relativity, quantum mechanics, band theory of solids, atomic and nuclear physics. The course text is **Principles of Modern Physics** by Leighton. Yearly.

431-432. Atomic and Nuclear Physics**3-0-6 Hours**

Prerequisite: Physics 421 or enrollment therein. The principles of atomic and nuclear physics with emphasis on the properties of atoms and nuclei. Topics include atomic structure and spectra, fundamental particles, nuclear structure, atomic and nuclear radiations, conservation laws, scattering and high energy processes. The course text is Semat's **Introduction to Atomic and Nuclear Physics**. Offered on demand.

Engineering Science

General objectives of the engineering science program are to provide technical training for those students interested in general engineering; to provide laboratory and technical experiences for teachers interested in industrial and scientific subjects taught in the public schools; to provide practical knowledge of industrial and economic materials; to contribute to general education through study of skills, materials, and practices of modern industry.

The curriculum aims to give the student the necessary fundamentals in the basic science and cultural fields that are essential in the application of principles and skills in modern industry, and to help students prepare themselves for professional engineering school and graduate school.

The department chairman should be consulted for information concerning the "three-two" program.

Major Requirements

The B.S. in engineering science requires Engineering Science 100, 101, 251, 252, 301, 404; Chemistry 101-102, 111-112; Mathematics 106, 201, 202, 303, 307; Physics 101-102, 201-202, 203-204, 301-302, 311-312, 321. The core curriculum must be completed, except that only one year of foreign language is required.

100. Engineering Orientation

1-1-1 Hours

Engineering as a profession, its attractions and professional responsibilities, the student's approach to his chosen field of engineering or architecture, the application of the slide rule in solution of engineering problems. Each semester.

101. Engineering Drawing and Graphics

0-6-2 Hours

Instructions in the proper care and use of drafting instruments, lettering, freehand sketching, orthographic projection, geometrics, dimensioning, section views, auxiliaries, working drawings, isometrics, tracing, and graphic solutions.

102. Engineering Drawing

0-6-2 Hours

Prerequisite: Engineering Science 101. A continuation of Course 101. Instructions in machine drafting, isometrics, detail and assembly drawings, shop drawings, notes and dimensioning, and graphics. Evening Division Only. Each semester.

104. Blueprint Reading for the Building Trades

0-3-1 Hours

Instructions in blueprint interpretation for trades and construction personnel. Small homes, construction projects, detail construction, materials lists, and industrial construction blueprints. Evening Division only.

119-120. Architectural Graphics**0-6-4 Hours**

An elementary course in architectural graphics and design composition. Instructions in the fundamentals of perspective, graphics, visualization, lines, planes, color, mood, texture, static and dynamic symmetry, details, design of small objects. Designed for the architectural major. Yearly.

141. General Cartography**1-3-2 Hours**

A study of the history and development of modern mapping. Instructions in map uses, symbols, form, color, texture, simple projections, and map reading. Designed to meet requirements of the geology major. Yearly.

142. Map Drafting**1-3-2 Hours**

Prerequisite: Engineering Science 101 or 141. Instructions in map construction, projections, reproduction, aerial photography, composition, contours, ownership maps, plotting and sketching, types of maps and uses. Yearly.

201-202. Advanced Engineering Drawing**0-6-4 Hours**

Prerequisite: Engineering Science 102 or 251. Instructions in machine drafting and graphics, shop drawings, industrial projection drawings and dimensioning, costs, shades, shadows, detail and assembly drawings of complicated machines and scientific devices. Evening Division only. Yearly.

251. Descriptive Geometry**2-3-3 Hours**

Prerequisite: Engineering Science 101. A study of lines, points, planes, three-dimensional problems, visualization, developments, intersections, shades, shadows and graphic solutions. Spring semester.

252. Plane Surveying**2-3-3 Hours**

Prerequisite: Mathematics 101 or 106. Instruction in the care and use of surveying equipment, theories of surveying, errors, measurement of distance and angles, survey computations and plotting, and land descriptions. Yearly.

253. Plane Table Surveying**1-3-2 Hours**

Prerequisite: Engineering Science 252. Instruction in the care and use of the plane table alidade, field mapping, baseline and triangulation mapping, plotting and finishing of topographic field maps. Yearly.

301. Advanced Graphics**0-6-2 Hours**

Prerequisite: Engineering Science 251. A further study of graphic solutions beyond the scope of engineering drawing and descriptive Geometry 251. Emphasis will be placed on one of the following subjects to be selected by the student and his adviser: analysis of the more complex machine mechanisms; basic elements of production design; solutions of vector problems by graphic and mathematical techniques, graphic calculus, and nomography. Each semester.

310. Introduction to Corrosion and Control

3-0-3 Hours

Prerequisite: Eight hours of chemistry. Introduction to corrosion problems, electrochemistry of corrosion, mechanism of the electrolytic cell, prevention of corrosion cells, and practical application of specific corrosion problems. 1970-1971 and alternate years. Evening Division only.

320. Materials of Industry

3-0-3 Hours

A study of industrial materials, their composition, applications, processing, and uses. Yearly.

404. Strength of Materials

3-0-3 Hours

Prerequisite: Physics 401, Mathematics 402 or enrollment therein. A study of the internal stresses and strains of a body, when external compression, tension and shear forces are applied.

RELIGION

Professor Pomeroy, *Chairman*

Professor: Pledger

Assistant Professor: R. E. Taylor

Lecturer: Aamodt

Major Requirements

The Department of Religion attempts to lead students in serious philosophical and religious consideration of the questions of man's origin, destiny, meaning and purpose. The basic assumption of the courses is that these questions are best dealt with in the Jewish-Christian history and writings. Students will normally meet the College requirement of six hours of Bible for graduation with Religion 201 and 202 which survey the Old and New Testaments from historical and literary viewpoints. Members of churches which forbid the study of religion at a Protestant institution may meet the College requirement by taking Philosophy 301, 302. For the B.A. in religion 24 semester hours of religion, including Religion 201-202 are required. Philosophy 301 and 302 shall count as religion for the major.

110
Courses
Of
Instruction

Pre-Theological Curriculum

Entrance requirements of seminaries and graduate schools of religion must be met with courses in addition to the requirements of the core curriculum and of the major subject selected. Therefore, students who plan such graduate study should, in all cases, counsel with a member of the Department of Religion before enrolling for work beyond the first semester of the freshman year.

103. Principles of Church Administration

1 Hour

Designed to meet the needs of ministerial students and other persons training for Christian work.

201. Old Testament Survey

3 Hours

Each semester.

202. New Testament Survey

3 Hours

Each semester.

203. History and Doctrines of Methodism

3 Hours

Study of movement which affected the social and religious life of eighteenth century England and which influenced the cultural, religious and political development of America. Primary sources are the works of John Wesley and secondary sources are recent interpretative biographies and histories of Methodism. Offered in 1970-1971 and alternate years.

206. Life and Teachings of Jesus **3 Hours**
Thorough study of the Gospel accounts of the life of Jesus with emphasis on the historical, political, and religious background, literary forms, and teachings. Offered in 1970-1971 and alternate years.

301. History of the Christian Church **3 Hours**
Survey of development of the Christian Church in thought and individual life from the first century to the Reformation. Careful study is made of the lives and writings of the leading figures of this period. (Same as History 301.)

302. History of the Christian Church **3 Hours**
Study of major branches of the Christian Church and trends of development since the Reformation. (Same as History 302.)

303. Philosophy of Religion **3 Hours**
A study of the problems of religious language and truth, the existence of God, and related religious concepts. (Same as Philosophy 303.) Offered yearly.

306. Prophets of Israel **3 Hours**
Study of the prophetic movement and its historical background in Israel from the time of Moses until its close with the book of Jonah.

307. Philosophy of Eastern Religions **3 Hours**
An historical study of the fundamental philosophical concepts of near and far eastern religions and ethical systems. (Same as Philosophy 307.) 1971 and alternate years.

309. Life and Letters of Paul **3 Hours**

315. Theology of the New Testament **3 Hours**
Study of major theological and practical religious questions of the New Testament.

317, 318. Renaissance and Reformation **6 Hours**
The Renaissance section is a study of the important social, political, economic and cultural developments in European civilization during the fourteenth and fifteenth centuries. The Reformation section covers the sixteenth and the first half of the seventeenth centuries. (Same as History 317, 318.)

402. Directed Study in Christian Thought **3 Hours**
Prerequisite: Religion 201-202 and consent of instructor. Study of classical religious writings from various periods of the church's history. Selections from Augustine, Aquinas, Luther, Calvin, Wesley, Schleiermacher, Kierkegaard, Barth, Tillich, and others will be chosen. Offered in 1970 and alternate years.

Christian Education

209. The Contemporary Church **3 Hours**
A study of the meaning, problems, and expressions of the church in contemporary culture.

310. Introduction to Christian Education **3 Hours**
Survey of the whole field of Christian Education with emphasis upon its historical and theological foundations.

412. Seminar in Christian Education **3 Hours**
Prerequisite: 310. Intensive study and/or projects in specific areas of Christian Education.

SOCIOLOGY

Professor Pledger, *Chairman*

Visiting Professor: Gibbs

Lecturers: Conerly, Falk, James

Major Requirements

The courses in the Department of Sociology fall into three somewhat overlapping areas. These are courses purposed to develop the general culture of the student; courses supporting other curricula for which knowledge of social institutions and behavior is essential; courses needed to prepare the student for a specific profession.

The objective of the department is to help the student, whatever his prospective profession, to know himself as a responsible member of society. To do this, he must understand something of group behavior in the urban-industrial milieu of western civilization and be encouraged to recognize his relation to the total pattern as well as to the smaller group comprising it.

Candidates for a B.A. in sociology must take 30 semester hours in sociology, six of which may be from Sociology 101, 102, and 103. Twelve semester hours must be taken from courses numbered in the 300 and 400 level. Economics (301-302) may be used to satisfy part of this requirement.

101. Introductory Sociology **3 Hours**

An examination of cultural origins; factors in group behavior; bases of personality; and present trends in our own culture. Each semester.

102. Social Institutions **3 Hours**

Background, organization, changing character of the basic social institutions, with particular reference to western civilization. Each semester.

103. Introduction to Anthropology **3 Hours**

A study of ancient and modern man, race, culture, and society. Emphasis placed on the cultural approach. Yearly.

201. Contemporary Social Problems **3 Hours**

Prerequisite: Sociology 101. An examination of the various contemporary social problems, causes, extent, cost, and possible solutions. Yearly.

202. Marriage and Family **3 Hours**

Prerequisite: Sociology 102 or three hours of psychology. Problems related to preparation for marriage; marital adjustments; organization and function of the family. Yearly.

301. Community Organization 3 Hours

Prerequisite: Junior standing. Community organization as a process in social work, its characteristics and growth. Discussion of councils of social agencies, community chest, and similar agencies primarily carrying out this process. Analysis of statewide, national, and international agencies of the field of organization for social welfare. Some attention is given to problems of research. Alternate years.

302. Introduction to Social Work 3 Hours

Prerequisite: Sociology 101, 102. Underlying philosophy and basic principles of social casework, and a study of the various categories of welfare work. Alternate years.

303. Majority-Minority Relations 3 Hours

Prerequisite: Sociology 101, or permission of the instructor. Focus on the causes, purposes, and consequences of the prejudices, discriminations and segregation, especially as they are manifested in various institutional contexts. Problems of self-conception, adjustment patterns, social movements, community organization, will be presented. Yearly.

305. Social Psychology 3 Hours

Prerequisite: Psychology 201, Sociology 101. A study of the nature of social behavior; a psychological and social analysis of society and social institutions. Yearly.

400. Southern Regionalism 3 Hours

Prerequisite: Junior standing or above. A study of the population and cultural characteristics of the South as related to the history and economy of the region; recent trends and prospective changes with reference to rural-urban developments in the region. Alternate years.

401. Criminology 3 Hours

Prerequisite: Sociology 101, 102, or three hours of psychology. A study and analysis of the factors leading to crime; sociological evaluation of present methods of dealing with the criminal. Yearly.

402. Juvenile Delinquency 3 Hours

Prerequisite: Sociology 102 or three hours of psychology. Social and emotional adjustment problems of youth between the ages of 12 and 21 years of age; and analysis of the factors leading to delinquency; sociological evaluation of present methods of dealing with the delinquent. Yearly.

403. Sociological Theory 3 Hours

Prerequisite: Sociology 101. A critical study of the major writers from Comte to contemporary sociological theorists, examined in the perspective of various schools of sociological thought. Yearly.

405. Methods of Social Research 3 Hours

Prerequisite: 20 semesters of sociology and/or other social sciences. Methodology underlying the social sciences; methods by which valid research is carried on in the social sciences; the survey, the interview, use of questionnaire, case studies, and related devices. Yearly.

SPEECH AND DRAMA

Associate Professor: Alexander

Instructor: Holloway

Lecturer: Torrans

The Department of Speech and Drama offers courses designed to provide the student with a knowledge of the fundamental principles of speech and drama and their application to contemporary life, and to prepare the student to teach speech. Three programs are offered: speech major, drama major, and speech education.

Speech: For a B.A. in speech, majors must take 40 hours in Speech 101, 200, 201, 332, 403 (3 hours), and 27 hours from the following: Speech 203, 205, 211, 220, 231, 300, 306, 311, 312, 401, 404, 411; English 307; Philosophy 203.

Drama: For a B.A. in drama, majors must take 40 hours in Speech 101, 112, 200, 201, 306, 308, 401, 403 (3 hours), and 16 hours from the following: Speech 203, 204, 205, 206, 231, 250, 312, 331, 350, 404.

Speech Education: The speech major may receive a B.A. in speech with teacher certification by fulfilling the education requirements and by getting approval of Speech Department adviser. Ample opportunity is provided for development of performance skills essential for personal artistry. All speech and drama majors are required to participate in the groups. Students from other departments of the College are encouraged to join them also.

101. Fundamentals of Voice and Diction

3 Hours

Study of the international phonetic alphabet, phonics, and voice improvement. Offered each semester.

105. Workshop Production

3 Hours

A laboratory course in all phases of staging utilized in summer production of the department. Offered in summer only.

107. Workshop Acting

3 Hours

An applied study of the art of acting, correlated with summer productions of the department. Offered in summer only.

109. Platform Art for Ministers **2 Hours**
Study of the organization and delivery of sermons and other forms of public address frequently used by ministers; the study of oral Bible reading. Offered on request.

112. Philosophy of the Theatre **3 Hours**
Analysis and criticism. An introductory study of form and technique of dramatic literature.

200. Public Speaking **3 Hours**
The development of oral communication skills employed in extemporaneous and impromptu speaking.

201. Literary Interpretation **3 Hours**
Techniques involved in platform reading and program presentation of prose, poetry, and drama. Offered yearly.

203. Acting **3 Hours**
A beginner course in the study of the stage from the standpoint of the actor. Offered yearly.

204. Acting **3 Hours**
A continuation of Speech 203. Offered yearly.

205. Theatre Forms and Materials **3 Hours**
A course in applied arts in staging, lighting, and scenery. Offered yearly.

206. Designing Theatre Forms and Materials **3 Hours**
Introduction to the principles of design for the theatre. Offered 1970-1971 and alternate years.

211. Debate **2 Hours**
Study of the principles of debate with practice in competitive debating for the public and in collegiate tournaments. Offered yearly.

220. Discussion Practices **3 Hours**
Study of the principles of participation in panels, round-tables, symposiums, forums with emphasis also placed on leadership in these forms.

231. Theatre Reading **1 Hour**
Reading course, exploring criticism and theory in the contemporary theatre, through current books and periodicals, and through class discussion. Offered yearly.

250. Historic Costume for the Stage **2 Hours**
Prerequisite: Speech 205. A survey of dress, style, and design of personal scenic elements, for theatrical production. Laboratory experience on current productions in the department. Offered 1969-1970 and alternate years.

300. Advanced Public Speaking 3 Hours

Prerequisite: Speech 200. Concentrated study in the more formal public address with emphasis on rhetoric, logic, and audience psychology. Offered 1969-1970 and alternate years.

306. History of the Theatre 3 Hours

The development of the drama from beginning to the present including highlights of great dramatists and their works and of production.

308. History of the Theatre 3 Hours

Continuation of Speech 306.

311. Debate 2 Hours

Continuation of Speech 211. Offered yearly.

312. Advanced Literary Interpretation 3 Hours

Prerequisite: Speech 201. Study of all types of material adaptable for oral presentation, planning of programs, presentation of reading hours. Offered 1970-1971 and alternate years.

331. Theatre Reading 1 Hour

Offered yearly.

332. Speech Criticism 1 Hour

Prerequisite: Speech 200 or consent of instructor. Study of current speeches and principles of evaluation.

350. Historic Costume for the Stage 2 Hours

Continuation of Speech 250. Offered 1970-1971 and alternate years.

401. Directing 3 Hours

A study of the development of the director and his responsibilities in the theatre, together with a survey of production principles. One-act plays produced by members of the class. Senior speech or drama majors only. Offered yearly.

403-404. Seminars 1-3 Hours

Prerequisite: Consent of the chairman. Advanced courses arranged for the individual major's requirements. Offered each semester.

411. Debate 2 Hours

Continuation of Speech 311. Offered yearly.

THE DIVISIONAL MAJORS

THE HUMANITIES

Professor Pomeroy, *Chairman*

Major Requirements

The Humanities Division comprises the Departments of Art, Religion, English, Foreign Languages (French, German, Latin, Spanish), Philoso-

phy, Speech and Drama, and the School of Music. For the B.A. in humanities, a major must take 80 semester hours from the departments listed above, including courses in the humanities prescribed for all students. Fifteen semester hours of social sciences are required, with six from each of two departments and three from any department in the division. These hours may satisfy the social science requirement of the core curriculum. Music 141-142, Art 101, 102, and Speech 112, 306 are required.

THE NATURAL SCIENCES

Professor S. A. Taylor, *Chairman*

The Division of Natural Sciences includes the Departments of Biology, Chemistry, Geology, Mathematics, and Physics and Engineering Sciences. The divisional major, with considerable requirements in both biology and chemistry, is designed to meet the needs of pre-medical students, pre-dental students and those interested in related medical sciences. A divisional natural science major will be a candidate for a B.S. degree and must complete courses prescribed for all students, plus 70 hours taken in not more than four of the natural sciences. These 70 hours may include the courses prescribed for all students. The requirement also includes 15 hours in the social sciences, with no more than six hours taken in economics, education, geography, government, history, psychology, or sociology.

THE SOCIAL SCIENCES

Professor Pledger, *Chairman*

Major Requirements

The Division of Social Sciences includes the Departments of Economics and Business, Education and Psychology, History and Government, Physical Education and Sociology. The divisional major is recommended for those planning to enter professional schools and for persons who do not plan to continue their studies beyond the baccalaureate degree. A divisional social science major will be a candidate for a B.S. degree and must complete the courses prescribed for all students. In addition, 65 hours are required, 17 or 18 hours of which must be taken from each of three subjects within the division. A minimum of 27, or 40 percent, of the 65 hours required in the social sciences for the

divisional major must be in 300 or 400 level courses. A divisional major in the social sciences may select any three of the following subjects but the specific courses listed for each should be taken: Business 203-204, 321, 323 (or 346) and Economics 329; economics: Economics 201-202 and any 12 hours of 300 and 400 courses; education: at least nine hours must be at the 300 and 400 level; history: not more than six hours at the 100 level; at least 6 hours at the 300 and 400 level; physical education: Physical Education 223, 225, 321, 423, 424, 428 (or 239); psychology: Psychology 101, 221-222, 321-322; sociology: Sociology 101, 201 or 202, 302 or 303, 401 or 402, 403, 405.

PRE - PROFESSIONAL PROGRAMS

Centenary College has a "three-two" program in liberal arts and engineering in cooperative agreements with Columbia University, Louisiana Polytechnic Institute, Texas A&M University, and the University of Arkansas, leading to a degree from both Centenary College and the chosen engineering school. The chairman of the Department of Physics should be consulted.

The College offers pre-dental and pre-medical curricula to satisfy the prerequisites of the professional school and lead to a B.S. degree with either a departmental or divisional major. Preparatory programs are also offered for the following fields of medicine: osteopathy, pharmacy, physical therapy, and veterinary medicine. Interested students should consult the chairman of the Department of Biology.

A pre-law curriculum leading to a baccalaureate degree in business, economics, government, history, psychology, or sociology is offered. The chairman of the Department of History and Government should be consulted.

A student may elect a pre-theology curriculum leading to a B.A. in any one of the liberal arts disciplines and meeting entrance requirements of seminaries of all Protestant denominations which subscribe to those set forth by the American Association of Theological Schools. The chairman of the Department of Religion should be consulted.

VI

SUPPLEMENTARY INFORMATION

EVENING DIVISION

Centenary's Evening Division program is based on the principle that education is a continuing process and that, in the increasing complexities of the life of these times, the resources of the College should be available for such continuing adult education. Evening Division courses are available to persons working toward a college degree, to those desiring only to improve their competency in their present occupation or wishing to prepare for new vocations, and to those seeking cultural development for satisfying personal living and responsible citizenship.

To qualify for admission to Evening Division classes, the prospective student must be a high school graduate and/or in good standing at the accredited college he last attended. A psychometric testing center at the College is authorized to give General Education Development tests to prospective Evening Division students who have not finished high school. These tests, if passed successfully, qualify the student for admission to the College.

Adults and students who are high school graduates and who are not on suspension at any college may enroll as auditors. Auditors are entitled to participate in the work of the class to the extent that they desire to do so, except that instructors are not required to give grades to auditors and therefore no grades are recorded in the Registrar's Office. Tuition is the same whether a course be taken for credit or audited.

A student expecting to take courses for credit toward a degree should consult the Director of the Evening Division or the head of the department in which he will major. Such interviews should be scheduled in advance by telephoning or writing to the Director prior to the regular registration period. A student enrolling for the first time should be prepared to furnish official transcripts of high school and college work.

VETERANS' EDUCATION

Veterans may take work in either the day school or the evening division at Centenary since the College has been approved for veterans' training under Title 38, U. S. Code. Application should be made through the Veterans Administration Regional office nearest the home of the prospective student.

To qualify for maximum benefits the veteran must be enrolled for a minimum of 14 hours per semester. If he is enrolled for 10 to 13 hours, he will receive three-quarters of his maximum entitlement. If he is enrolled for seven to nine hours, he receives one-half, and if he is enrolled for six or less hours, he will receive approximately the amount of his tuition divided into monthly payments. Tuition allowance is mailed directly to the student by the Veterans Administration, and the student is responsible to the College for paying his account according to rules governing all students.

Veterans who have not finished high school may take the General Education Development tests to qualify for admission to the College. In most states, the passing of these tests and the completion of eight units of high school work qualify a veteran for a high school certificate. It is recommended that this certificate be secured. Application for it should be made by letter to the high school last attended.

S U M M E R S E S S I O N S

A variety of courses is offered to students during four-week and eight-week sessions. All credits, grades and quality points earned by regularly enrolled Centenary students are credited to the total program of the student in the regular sessions, and they influence the cumulative averages and academic standing accordingly.

In addition to regular study courses, Centenary also offers two special summer programs intended to fill needs of students who may wish to enroll in the regular academic program of the College at a later date. These are the Pre-Freshman Study Course and the Summer Early Admissions Program. The former program is designed for high school students who need to strengthen reading and math skills before enrolling formally in college. Under the Early Admissions Program, outstanding high school students who have completed their junior year may enroll in the regular summer session. These students will be given college credit for their work after their high school courses are completed and they are registered at Centenary. Information and applications may be obtained from the admissions office.

A L U M N I A S S O C I A T I O N

Upon graduation from Centenary, all students become members of the Alumni Association. Today the Association has more than 7,000 active members, who receive the *Centenary College Alumni Magazine*. The Association is closely associated with the development program of the College, and its members are actively involved in all phases of college life. A fulltime director has headquarters on campus and extensive records are maintained on all past classes and students.

FACULTY 1968-69

- August E. Aamodt *Lecturer in Religion and Dean of Students*
B.A., North Dakota State University, 1951; B.D., Vanderbilt University, 1959. (1967)
- Mrs. Jacqueline Adams *Lecturer in Art*
A.B., Centenary College, 1939. (1966)
- Ruth Joy Alexander *Associate Professor of Speech and Drama*
B.A., Texas State College for Women, 1944; M.A., University of Wisconsin, 1955. (1958)
- Roy L. Beard *Lecturer in Economics and Business*
B.A., Louisiana State University, 1955; LL.D., New York University, 1960. (1967)
- Theodore T. Beck *Professor of French and Chairman, Department of Foreign Languages*
A.B., Colgate, 1928; M.A., University of Georgia, 1940; Ph.D., Louisiana State University, 1961. (1961)
- John L. Berton *Professor of Economics and Chairman, Department of Economics and Business*
B.S., University of Tulsa, 1957; M.B.A., 1961; Ph.D., 1965, University of Arkansas. (1967)
- Ilse K. Bissell *Instructor in German*
A.B., 1957; M.A., 1958, University of Bonn; Diploma, Berlitz School, 1960. (1965)
- Lucille Bond *Lecturer in Music*
B.A., University of Nebraska, 1933. (1967)
- Mattie Gray Brown *Lecturer in History*
A.B., 1938, Centenary College; M.Ed., Louisiana State University, 1947. (1968)
- June H. Buhler *Lecturer in English*
B.S., Texas Christian University, 1949; M.S., 1953; Ed.D., University of Arkansas, 1965. (1968)
- Joyce Anne Cameron *Assistant Professor of Music*
A.B., Pomona College, 1963; M.M., Indiana University, 1965. (1965)
- Virginia Carlton *Professor of Mathematics and Chairman of the Department*
B.S., Centenary College, 1939; M.S., Tulane University, 1940; Ph.D., Northwestern University, 1959. (1946-48; 1957)
- Gilbert M. Carp *Associate Professor of Music and Director, School of Music*
B.M.Ed., Louisiana State University, 1947; B.M., 1949; M.M., Converse College, 1952. (1966)
- Rella A. Carp *Lecturer in Music*
B.A., Maryville College, 1946; B.M., Converse College, 1947. (1966)
- Albert Richard Casavant, Jr. *Lecturer in Economics and Business*
B.A., Emory University, 1964; M.B.A., University of Pennsylvania, 1966. (1966)
- Carol Burton Casavant *Instructor in Education and Psychology*
B.A., Emory University, 1964; M.Ed., University of Chattanooga, 1965. (1966)
- B. P. Causey *Associate Professor of Music*
B.A., Northwestern State College, 1939; M.M., Northwestern University, 1954. (1941)

- Edward Murray Clark *Professor of English*
A.B., College of Emporia, 1921; M.A., 1933; Ph.D., University of Oklahoma, 1941. (1946)
- William J. Cole *Lecturer in Economics and Business*
B.S., Louisiana Polytechnic Institute, 1961; C.P.A. (1966)
- James M. Conerly *Lecturer in Sociology*
B.A., 1960; M.A., Louisiana Polytechnic Institute, 1962. (1968)
- Irene Cooke *Assistant Professor and Cataloguer*
B.A., University of Southwestern Louisiana, 1934; B.S.L.S., Louisiana State University, 1937. (1962)
- Willard Cooper *Professor of Art and Chairman of the Department*
B.A., Centenary College, 1947; M.F.A., Escuela Universitaria de Belles Artes, Mexico, 1949. (1958)
- Judd Copeland *Instructor in French**
*Spring semester
B.A., Centenary College, 1965; M.A., University of Arkansas, 1967. (1969)
- L. Hughes Cox *Associate Professor of Philosophy and
Chairman of the Department*
A.B., Wabash College, 1953; S.T.B., Boston University, 1956; M.A., 1959; Ph.D., 1963, Yale University. (1967)
- Antonio Curbelo *Assistant Professor of Spanish*
B.A., Candler College of Cuba, 1941; Ed.D., University of Havana, 1945. (1966)
- Mary Curlin *Lecturer in Latin*
B.A., Florida State University, 1932. (1967)
- Donald M. Danvers *Assistant Professor of Mathematics*
B.A., 1956; M.A., 1958, Northwestern University. (1960)
- Bryant Davidson *Professor of History and Government and of Philosophy*
A.B., Hendrix College, 1925; M.A., Columbia University, 1928; LL.D., Hendrix, 1960. (1928)
- Ronald E. Dean *Assistant Professor of Music*
B.A., Williams College, 1954; M.M., University of Michigan, 1957. (1960)
- Francis Deville *Instructor in French**
*Fall semester
A.B., Northwestern State College, 1961; M.A., Louisiana State University, 1968. (1968)
- Vannie Edwards *Instructor in Health and Physical Education*
B.S., Southeastern Louisiana College, 1959; M.S., Louisiana State University, 1968. (1964)
- Arnold Falk *Lecturer in Sociology*
B.A., Louisiana State University, 1940; M.S.W., Tulane University, 1947. (1959)
- Norman Z. Fisher *Lecturer in Music*
B.A., Lewis and Clark College, 1942; M.S.M., Union Theological Seminary, 1946. (1955)
- Joseph Daniel Freedlund *Lecturer in Business and Economics*
B.S., Rice University, 1947. (1968)
- Elizabeth Friedenberg *Lecturer in Art*
A.B., Centenary College, 1955; M.A., Stephen F. Austin State College, 1959; Contemporaries Workshop, Cornell University; Tschabosov School. (1952)
- Fergal P. Gallagher *Assistant Professor of English*
B.A., 1963; M.A., 1964; Ph.D., 1968, University of Wisconsin. (1968)

- Louie A. Galloway *Associate Professor of Physics and Chairman of the Department of Physics and Engineering Sciences*
B.A., Hendrix College, 1958; M.S., 1966; Ph.D., 1966, Case Western Reserve University. (1966)
- Joseph D. Garner *Associate Professor of Education*
B.S., 1949; M.S., 1950, Louisiana State University; Ed.S., Peabody College, 1961; Ed.D., University of Arkansas, 1967. (1967)
- Helen M. Gary *Instructor in English*
B.A., Southern Methodist University, 1966; M.A., Arizona State University, 1967. (1967)
- Barbara Jane Goodwin *Instructor in Spanish*
B.A., Centenary College, 1960; M.A., Tulane University, 1962. (1968)
- John M. Gibbs, O.B.E. *Visiting Professor of Psychology and Sociology*
B.A., 1934; M.A., 1937, Cambridge University; M.A., 1939, University of London; L.H.D., Union College (Kentucky), 1960. (Spring, 1969)
- Charles M. Greene *Assistant Professor of Mathematics*
S.B., Haverford College, 1952; M.S., University of Chicago, 1957. (1967)
- Paulo M. Gruppe *Lecturer in Music*
(1968)
- Donald K. Gucker *Lecturer in Psychology*
B.A., 1957; M.A., 1959, University of New Mexico. (1967)
- Wilfred L. Guerin *Professor of English*
B.A., 1951; M.A., 1953; Ph.D., 1958, Tulane University. (1953-62; 1963)
- Dorothy Gwin *Professor of Education and Psychology and Chairman of the Department*
B.B.A., 1954; M.S., 1955, East Texas State University; Ed.D., University of Kansas, 1958. (1959)
- Robert C. Hall *Lecturer in Business*
B.S., Louisiana State University, 1955. C.P.A., 1966. (1968)
- Robert N. Hallquist *Assistant Professor of Education and Psychology*
B.M., New England Conservatory of Music, 1950; M.A., Columbia University, 1959; D.Ed., University of Mississippi, 1968. (1967)
- Alton O. Hancock *Associate Professor of History*
B.A., Centenary College, 1954; B.D., 1957; Ph.D., 1962, Emory University. (1964)
- Marvin Wayne Hanson *Professor of Chemistry and Chairman of the Department*
B.S., Centenary College, 1950; M.S., 1953; Ph.D., 1964, University of Houston. (1959)
- Monas Harlan *Associate Professor of Music*
B.M., Westminster College, 1938; M.M., University of Southern California, 1950; graduate study at the Juilliard School of Music. (1959)
- Charles W. Harrington* *Assistant Professor and Head Librarian*
*Leave of absence, 1968-69
B.A., University of North Carolina, 1944; M.A., University of New Mexico, 1953; M.S., Louisiana State University, 1961. (1962)
- Jerry L. Harris *Instructor in Physics*
B.S., 1962; M.S., 1963, Louisiana Polytechnic Institute. (1966)
- Albertine Hayes *Lecturer in Education*
B.S., Southern University, 1940; M.A., University of Michigan, 1953; Ed. S., Peabody College, 1960; Ed. D., University of Oklahoma, 1964. (1968)
- Charles A. Hickcox *Professor of Geography and Geology and Chairman of the Department*
B.S., Middlebury College, 1934; M.S., University of Oklahoma, 1939. (1946)

- Thomas Sterling Hickey *Professor of Business and Psychology*
B.B.A., Southern Methodist University, 1951; Ph.D., Vanderbilt University, 1962. (1968)
- Joyce Hobbs *Lecturer in Music*
B.A., 1947; B.M., 1949, Park College; M.M., Converse College, 1951. (1965)
- Lawrence J. Holland *Lecturer in Business*
B.B.A., University of Oklahoma, 1956. (1967)
- Clifford L. Holloway *Instructor in Speech and Drama*
A.A., Lon Morris College, 1963; B.F.A., 1965; M.F.A., 1967, University of Texas. (1968)
- Robert Hood *Assistant Professor of Chemistry and
Director, Centenary Testing Laboratory*
B.S., Centenary College, 1950; Ph.D., University of Texas, 1969. (1968)
- Elizabeth Hughes* *Assistant Professor of Education*
*Leave of absence
A.B., Centenary College, 1930; M.A., Stephen F. Austin State College, 1955. (1953)
- Vernon Humble *Lecturer in Mathematics*
B.S., 1956; M.S., 1960, Northwestern State College. (1967)
- Dolores James *Lecturer in Sociology*
B.S., Centenary College, 1954; M.Ed., Northwestern State College, 1966. (1968)
- Paulette James *Lecturer in Speech**
*Spring semester only
B.A., Centenary College, 1965; M.F.A., University of Wisconsin, 1969. (1969)
- Richard E. Jennings *Lecturer in Music*
B.M. Ed., Centenary College, 1956; M.A., Louisiana Polytechnic Institute, 1964. (1968)
- Millard T. Jones *Assistant Professor of English*
B.A., 1958; M.A., 1966, Texas Christian University. (1969)
- Eddy Kozak *Lecturer in Music*
B.M., Centenary College, 1959. (1956)
- Earle Labor *Professor of English*
B.A., 1949; M.A., 1952, Southern Methodist University; Ph.D., University of Wisconsin, 1961. (1966)
- Diane Lang *Lecturer in Music*
(1968)
B.S.Ed., 1962; M.Ed., 1966, University of Illinois. (1968)
- Catherine Mildred LeBlanc *Instructor in Physical Education*
B.S., McNeese State College, 1964. (1967)
- Larry J. Little *Assistant Professor of Physical Education, Head Coach
of Baseball, and Freshman Coach of Basketball*
- E. Maurine Locke *Lecturer in Education and Psychology*
B.A., Northwestern State College, 1944; M.S., Lesley College, 1958. (1967)
- William E. Lockridge, Jr. *Lecturer in Education and Psychology*
B.A., Louisiana State University, 1949; M.A., Baylor University, 1954. (1964)
- Mark Lorrin *Lecturer in Music*
B.S., New York University, 1950. (1967)
- Charles B. Lowrey *Assistant Professor of Chemistry*
B.S., Centenary College, 1963; Ph.D., University of Houston, 1968. (1966)
- Walter M. Lowrey *Professor of History*
B.A., 1942; M.A., 1947, Louisiana State University; Ph.D., Vanderbilt University, 1956. (1963)

- Darrell M. Loyless *Instructor in Government*
B.S., University of Texas, 1967; M.S., East Texas State University, 1968.
(1968)
- Elsie McFarland *Lecturer in Biology*
B.A., Grinnell College, 1934; M.A., Temple University, 1936. (1953)
- Dewey McNiece *Lecturer in Economics*
B.S., 1952; M.S., 1956; Ph.D., Louisiana State University, 1961. (1968)
- Christene McPherson *Lecturer in Economics and Business*
B.B.A., East Texas State University, 1954; M.B.A., West Texas State University, 1955. (1966)
- Thad Norton Marsh *Professor of English and Dean of the College*
A.B., University of Kansas, 1948; B.A., 1951; M.A., 1955; B.Litt., 1957, University of Oxford. (1966)
- Ray C. Mayo *Lecturer in Business*
B.S., Northwestern State College, 1949; C.P.A. (1960)
- Anne Montgomery *Lecturer in Biology*
B.S., Centenary College, 1963. (1963)
- Louis E. Moossy *Lecturer in Engineering Sciences*
B.Arch., University of Notre Dame, 1949. (1966)
- Ira Lee Morgan *Professor of English and Chairman of the Department*
B.A., Hendrix College, 1949; M.A., University of Tennessee, 1950; Ph.D., University of Florida, 1954. (1954)
- Barbara Nelson *Instructor in English*
B.A., Wartburg College, 1966; M.A., Bowling Green State University, 1968.
(1968)
- Robert H. Noonan *Lecturer in Music*
B.S., Northwestern State College, 1948; B.M., Centenary College, 1963.
(1968)
- Jerry C. O'Dell *Instructor in English*
B.A., Centenary College, 1964; M.A., Stanford University, 1967. (1967)
- W. Darrell Overdyke *Professor of History and Government*
B.A., Centenary College, 1928; M.A., Louisiana State University, 1930; Ph.D., Duke University, 1941. (1934)
- Kathleen M. Owens *Assistant Professor, Assistant Librarian,
and Acting Head Librarian*
B.A., Centenary College, 1931; M.S.L.S., Louisiana State University, 1961.
(1961)
- Edmond M. Parker *Professor of Physics and Engineering Science*
B.S., Southeastern Oklahoma State College, 1946; M.S., East Texas State University, 1950. (1947)
- Woodrow W. Pate *Professor of Economics and Business*
A.B., Henderson State College, 1936; M.A., Louisiana State University, 1938; Ph.D., University of North Carolina, 1949. (1949)
- Roy Laing Pearson *Associate Professor of Economics*
B.S., 1961; Ph.D., 1968, University of Virginia. (1968)
- Frances M. Perkins *Assistant Professor of Music*
B.A., 1944; B.M., 1947, Centenary College; M.M., Chicago Musical College, 1947. (1947)
- W. Ferrell Pledger *Professor of Religion and Sociology, Chairman
of the Department of Sociology and of the Social
Sciences Division; Director of Evening and Summer Sessions*
B.A., 1935; M.A., 1936, Southwestern University; B.D., Duke University, 1937; Ph.D., Hartford Seminary Foundation, 1944. (1953)

- Webb D. Pomeroy *Professor of Religion and Chairman of the Department, and of the Humanities Division*
B.A., Centenary College, 1944; B.D., Union Theological Seminary, 1946; Ph.D., University of Edinburgh, 1953. (1953)
- Katye Lee Posey *Lecturer in Education and Psychology*
B.A., Northwestern State College, 1941; M.Ed., 1951; Ed.D., 1959, University of Houston. (1959)
- Viva L. Rainey *Assistant Professor of History and Government*
B.A., 1934; M.A., 1947, University of Chicago; Ph.D., University of Madrid, 1961. (1964)
- Arminda Doty Riser *Lecturer in Education and Psychology*
B.A., Louisiana State University, 1939; M.A., Stanford University, 1949. (1963)
- Milton I. Rosenzweig *Lecturer in Psychology*
B.S., City College of New York, 1949; M.S., University of Miami, 1951. (1955)
- Johnnie M. Schulman *Instructor in Physical Education*
B.S., Centenary College, 1957. (1968)
- Rosemary Seidler *Assistant Professor of Chemistry*
B.S., Loyola University, 1961; Ph.D., Tulane University, 1966. (1966)
- Fariebee Parker Self *Associate Professor of Mathematics*
A.B., Northwestern State College, 1928; M.A., Louisiana State University, 1940. (1946)
- B. L. Shaw *Lecturer in Education*
B.S., 1955; M.S., Northwestern State College, 1959. (1968)
- Margaret Anne Shaw *Instructor in French*
B.A., 1963; M.A., 1967, Louisiana State University. (1968)
- Nolan G. Shaw *Associate Professor of Geology*
A.B., Baylor University, 1951; M.S., Southern Methodist University, 1956; Ph.D., Louisiana State University, 1966. (1955)
- John F. Shenaut *Lecturer in Music*
B.M., American Conservatory of Music, 1938, M.M., University of Michigan, 1940. (1948)
- Orvis U. Sigler, Jr. *Assistant Professor of Physical Education and Acting Head of the Department; Director of Athletics*
B.S., Southwest Missouri State College, 1948. (1958)
- David Rae Simmons *Assistant Professor of Mathematics*
B.S., Centenary College, 1962; M.S., 1966; Ph.D., 1969, University of Arkansas. (1969)
- Mary Jean Simpson *Lecturer in Music*
B.S., The Juilliard School of Music, 1965; M.S., University of Texas, 1968. (1968)
- Ballard Lee Smith *Instructor in Business*
B.S., 1967; M.S., 1968, Louisiana State University; C.P.A. (1968)
- Betty M. Spears *Associate Professor of Mathematics*
A.B., 1946; M.A., 1947, Southern Methodist University. (1947)
- Emma L. Stringfellow *Assistant Professor of Education and Psychology*
B.S., 1924; M.A., 1931, Louisiana State University; Ed.D., New York University, 1956. (1965)
- B. Lee Sutton *Lecturer in Art*
B.A., 1951; B.I.D., 1951, Oklahoma State University. (1964)
- Joe Swank *Head Basketball Coach and Assistant Professor of Physical Education*
B.S., University of Tulsa, 1951. (1968)

- Robert Ed Taylor *Assistant Professor of Religion and
Chaplain to the College*
B.A., Centenary College, 1952; B.D., Southern Methodist University, 1955.
(1961)
- Stanton A. Taylor *Associate Professor of Chemistry and Chairman
of the Natural Sciences Division*
B.S., Northwestern University, 1949; M.S., Iowa State University, 1955;
Ph.D., University of Oklahoma, 1965. (1961)
- William C. Teague *Adjunct Professor of Music*
B.A., Curtis Institute of Music, 1948. (1948)
- Todd Yarbrough Tillman *Lecturer in Business and Economics*
B.S., East Tennessee State College, 1958. (1963)
- Ann Torrans *Lecturer in Speech and Drama*
B.A., Northwestern State College, 1955; M.A., Louisiana State University,
1959. (1968)
- George W. Treese *Instructor in Mathematics*
B.S., McNeese State College, 1959; M.S., Louisiana State University, 1962.
(1963)
- Milton C. Trichel, Jr. *Lecturer in Economics and Business*
B.S., Centenary College, 1929; LL.B., Columbia University, 1932. (1951)
- Mary Upton *Lecturer in Music*
George Peabody College for Teachers. (1966)
- Leroy Vogel *Professor of History and Government and
Chairman of the Department*
A.B., 1932; Th.B., 1935, Calvin College and Seminary; Th.M., Princeton
Seminary, 1936; Ph.D., Heidelberg University, 1938. (1946)
- Alvin C. Voran *Associate Professor of Music and Director
of the Centenary College Choir*
A.B., McPherson College, 1928; B.M., Chicago Conservatory of Music, 1932;
Mus.D., McPherson College, 1957. (1937)
- Rufus F. Walker *Associate Professor of Physics*
B.A., 1957; Ph.D., 1965, Harvard University. (1968)
- Riley Wallace *Instructor in Physical Education and
Assistant Basketball Coach*
B.S., Centenary College, 1964. (1967)
- Mary Warters *Professor of Biology and Chairman of the Department*
A.B., Shorter College, 1923; M.A., The Ohio State University, 1925; Ph.D.,
University of Texas, 1943. (1927)
- Robert Johnson Watts *Assistant Professor of German*
A.B., 1946; M.A., 1947, Duke University. (1965)
- Douglas C. Whitehurst *Lecturer in Mathematics*
B.S., Louisiana State University, 1955. (1966)
- Nena Plant Wideman *Lecturer in Music*
B.A., Louisiana State Normal College, 1926; B.M., Centenary College, 1934;
M.M., Chicago Musical College, 1942. (1966)
- Jack Stauffer Wilkes *President of the College*
A.B., Hendrix College, 1938; B.D., Southern Methodist University, 1941;
D.D., Oklahoma City University, 1956; LL.D., McMurry College, 1958.
(1964)
- Orin P. Wilkins *Professor of Biology*
B.A., 1946; M.A., 1948; Ph.D., 1955, University of Texas. (1955)
- John O. Williams *Instructor in Physics*
B.A., Centenary College, 1961; M.A., University of Texas, 1966. (1966)
- John M. Winn, Jr. *Lecturer in Religion*
B.A., Tulane University of Louisiana, 1951; B.D., Perkins School of The-
ology, S.M.U., 1954. (1968)

EMERITI

- Elmer Lee Ford *Professor of Foreign Languages*
A.B., Howard College, 1915; M.A., Howard College, 1916; Docteur de
L'Université de Lyon, 1927. (1929-1961)
- Helen Ruffin Marshall *Assistant Professor of Voice*
Graduate, New England Conservatory, 1909. (1941-1959)
- Otha King Miles *Professor of Education and Psychology*
A.B., Centenary College, 1931; M.A., University of Texas, 1932; Ph.D.,
University of Texas, 1942. (1943-1960)
- Bruno Strauss *Professor of German and History*
Ph.D., University of Berlin, 1911. (1939-1964)
- Ralph E. White *Professor of Modern Languages*
A.B., Emory University, 1916; M.A., Emory University, 1923; Ph.D., Uni-
versity of Texas, 1949. (1927-1959)

LIBRARY STAFF

Charles W. Harrington	<i>Librarian</i>
Mrs. Kathleen M. Owens	<i>Assistant Librarian and Acting Librarian</i>
Mrs. Irene S. Cooke	<i>Cataloguer</i>
Mrs. Czarena Stuart	<i>Circulation Librarian</i>
Miss Linda Morris	<i>Acquisitions Assistant</i>
Mrs. Margie Ann Rambin	<i>Assistant Cataloguer</i>
Mrs. Anna White	<i>Serials and Exchange Assistant</i>
Mrs. Ann S. Trickett	<i>Reference Assistant</i>
Mrs. Wynell S. Arnold	<i>Library Secretary</i>

COMPUTATION LABORATORY STAFF

Dr. Louie A. Galloway, III	<i>Co-Director</i>
Mr. Charles M. Greene	<i>Co-Director</i>
Dr. Rufus F. Walker, Jr.	<i>Associate Director</i>
Mr. John B. Tully	<i>Scientific Programmer</i>
Mrs. Gervais W. McCoy	<i>Computer Manager</i>

LECTURERS IN EDUCATION

1968-1969

Mrs. Ellen Anderson	Mrs. Annie Johnston
Mrs. Marie Barber	Miss Earline Jordan
Mrs. Gail Bridger	Mrs. Eunice Kennedy
Mrs. Mildred Cooke	Mr. Griffin Latimer
Miss Dora Cooksey	Mrs. Clifford M. Lee
Mrs. Dorothy H. Cooper	Mrs. Blanche Little
Mrs. Marie Clark	Mr. James E. McGuffin
Mrs. Billie Von Einam	Mrs. Juanita Murphy
Mr. Bernard Firestone	Mr. Stanley Rambin
Mrs. Mary Lou Grant	Mrs. Mary Dey Schaal
Mrs. Phalamae Gray	Miss Arline Tyler
Mrs. James G. Harrison	Mr. G. C. Warren
Mr. Thomas K. Henry	Miss Virginia Whiteman

131

Directories

PARISH APPROVED SUPERVISORS OF STUDENT TEACHERS

1968-1969

Mrs. Thelda Baker	Miss Georgia Lee
Mr. Jackie V. Bogan	Mrs. Mary Lewis
Mrs. Louie G. Chalfant	Miss Sandra McCalla
Mrs. Vickey Caldwell	Mrs. Mary McClanahan
Mr. Thomas Dickson	Miss Lucille McCook
Miss Edith Elliott	Mrs. Bobbye Montgomery
Mrs. Oberah Fisher	Mrs. Edna Morgan
Mrs. Sarah Freeman	Mr. Mike Moran
Mrs. Margaret Gowen	Mr. Orlando Moss
Mr. John S. Gholson	Mrs. Ruth Murray
Mr. Macura Hamilton	Mrs. Grace Smal
Mr. Lee Hedges	Mrs. Carolyn E. Smith
Miss Esther Hielscher	Mrs. Zula Smith
Mrs. Irbee Lawrence	Mr. Billy Talton
Mrs. Margaret Nolan	Mrs. Pauline Walton
Mr. Philip Kendall	Mrs. E. A. Wilson
Mr. Eliot S. Knowles, Jr.	Mr. William F. Woods

ACADEMIC CALENDAR 1969-70

FALL SEMESTER 1969

Pre-Registration Faculty Conference		Friday	August 29
Dormitories Open for New Students	8:00 AM	Saturday	August 30
New Student Orientation		Saturday to Monday	August 30 September 1
Registration of Seniors, Juniors and Sophomores	8:30-12:00 M	Monday	September 1
Registration of Freshmen & Transfers	8:30-12:00 M 1:00-4:00 PM	Tuesday	September 2
Classwork Begins	7:50 AM	Wednesday	September 3
Last Day for Enrolling or Changing Sections		Friday	September 12
Deadline for Dropping Courses without Academic Penalty		Friday	October 10
Mid-Semester Grade Reports Due	12:00 M	Saturday	November 1
Graduate Record Examinations	1:00-4:00 PM	Tuesday	November 11
(Required of all graduating seniors)	1:00-4:00 PM	Friday	November 14
	1:00-4:00 PM	Monday	November 17
Thanksgiving Recess Begins	12:00 M	Wednesday	November 26
Classwork Resumes	7:50 AM	Monday	December 1
Pre-Registration for Spring Semester		Tuesday to Thursday	December 2 December 4
Classwork Ends		Friday	December 12
Semester Examinations		Monday to Friday	December 15 December 19
Christmas Recess Begins		Friday	December 19

SPRING SEMESTER 1970

Registration	8:30-12:00 M 1:00-4:00 PM	Monday	January 12
Classwork Begins	7:50 AM	Tuesday	January 13
Last Day for Enrolling or Changing Sections		Friday	January 23
Deadline for Dropping Courses without Academic Penalty		Friday	February 20
Mid-Semester Grade Reports Due	12:00 M	Saturday	March 7
Spring Recess Begins	5:00 PM	Friday	March 20
Classwork Resumes	7:50 AM	Tuesday	March 31
Founders' Day		Thursday	April 2
Graduate Record Examinations	1:00-4:00 PM	Tuesday	April 7
(Required of all Graduating Seniors)	1:00-4:00 PM	Friday	April 10
	1:00-4:00 PM	Monday	April 13
Pre-Registration for Fall Semester		Tuesday to Thursday	April 28 April 30
Classwork Ends		Friday	May 8
Semester Examinations		Monday to Friday	May 11 May 15
Baccalaureate	2:30 PM	Sunday	May 17
Commencement	8:00 PM	Sunday	May 17

SUMMER SESSION 1970

Registration	9:00 AM	Monday	June 8
Classwork Begins	7:00 AM	Tuesday	June 9
Mid-Semester		Friday	July 10
Final Examinations		Thursday and Friday	August 13 August 14

INDEX
